On Thursday November 10th 2011, in the premises of the University of Sarajevo's Administrative Office, an INFO DAY, with the aim of informing a larger number of students, teachers and associates was held, within which the programmes and possibilities of granting scholarships for study stays at the universities in European Union were presented. The attendees were greeted by Mr. Adnan Rahimi, Associate Expert for Student mobility, University of Sarajevo, who subsequently presented the ERASMUS MUNDUS 2 mobility programme and possibilities of receiving a scholarship for study stays at universities in EU member countries, as well as preconditions that need to be fulfilled if they start an application procedure.

“Being a part of the Erasmus Mundus 2 program for the Western Balkans, projects JoinEU-SEE, EUROWEB and ERAWEB represent cooperation between higher education institutions from the Western Balkans and the universities from EU member countries. The aim is to stimulate the exchange of students, teachers and staff and to support mobility, especially from the non-EU countries to the EU” said Mr. Rahimi.

University of Sarajevo has been qualified to participate in mobility projects from the software package of the European Commission's Erasmus Mundus - JoinEU-SEE, ERAWEB and EUROWEB. These projects will significantly increase the number of scholarships for mobility of students, teachers and staff in the Member States of the European Union.

Students who had already stayed at universities in the European Union member countries, within the held INFO DAY, presented their experiences and sent a message of encouragement to students in order to encourage them to apply in large numbers. Also, the students from EU addressed the attendees, where they had an opportunity to express their wish to study at the University of Sarajevo and to participate in mobility programmes, and why did they choose Sarajevo as the institution to visit. This was another way to get closer to students – the very idea of mobility and to make the application process, and staying at the foreign institution simpler and easier. Also, on this occasion, a search engine for scholarships for students from the Western Balkans, S4WB was presented, competitions for scholarships granted by the Governments of Japan and France announced, competitions for undergraduate and postgraduate studies in Italy presented, as well as possibilities for scholarships which British Scholarship Trust grants. The “Student entrepreneurship” project was presented to interested attendees that would support students in developing entrepreneurship ideas.
