**Dear students, teachers and associates,**

This Guide for Study Programs of the University of Sarajevo tries to present the rich offer of study programs of our Academies and Faculties.

Mobility, as an important factor of the Bologna Process, implies a residence at the host university, where students have more possibilities to expand their linguistic, cultural knowledge, as well as the knowledge gained through the education. At the same time, it is believed that mobility contributes to the better transparency and acknowledgement of studies and qualifications, in accordance with EU rules and Bologna process in this area.

With a goal to make international relations even stronger, we have prepared a certain number of guides that will take you through the rich tradition of the University of Sarajevo, the City of Sarajevo and of Bosnia and Herzegovina. We want to ease the process of mobility to all students and staff members who decide to spend certain period at the most respected higher education institution in Bosnia and Herzegovina.

This guide will provide you information about University of Sarajevo, academic calendar with a timetable of classes and events, and http links of all faculties and academies. We believe that this information will be of use to you during your selection of a desired study program and residence at our University.

Good luck,

**Rector**

**Prof. Dr. Muharem Avdispahić, Dr. h. c.**

**ABOUT THE COUNTRY**

Official name:

BOSNIA AND HERZEGOVINA

Population: 3.791.622\*

Capital: SARAJEVO

Area: 51.129 sq km (19,741 sq miles)

Official languages:

Bosnian/Croatian/Serbian

FLAG

# SARAJEVO!

## A city or a living legend?

### THE STORY OF THE CITY

Sarajevo is the capital and the largest city of Bosnia and Herzegovina, with a population of 291.422\* people living in the four municipalities that make up the city area, and 438.443\* people living in the wider area of the Sarajevo Canton. It is also the capital of the Federation of Bosnia and Herzegovina Entity, as well as the administrative centre of the Sarajevo Canton. Sarajevo is located in the Sarajevo valley, surrounded by the Dinaric Alps, and situated around the Miljacka River.

### HISTORY

Although the first settlements in the area date back to prehistoric times, the modern city developed as an Ottoman stronghold in the 15th century. Sarajevo has attracted international attention several times throughout its history: in 1914 it was the site of the assassination of the Austrian heir to the throne, the event that triggered the World War I, while seventy years later it became the host City of the 1984 Winter Olympics. More recently, Sarajevo went through the longest siege in the modern military history, during the Aggression on Bosnia and Herzegovina. Today, the city is recovering and adjusting to a post-aggression reality, as a major centre of culture and economic development in Bosnia and Herzegovina. Interestingly, Sarajevo was also the first city in Europe and the second city in the world to have a full-time operational electric tram network running through the city.

Experience for yourself the warm welcome and the historical riches that make Sarajevo unique. But remember, once you come here you will always want to return. Walk down *Baščaršija* and you will still see a mixture of traditional craft stalls next to contemporary fashion retailers. Every few steps there are an ancient chapel, mosque or other religious monument.

Sarajevo has been the meeting point between east and west for hundreds of years, the place where time seems to freeze. Many civilizations and Empires have passed through this city, each of them leaving traces behind that can be found all over. In just a few hundred meters in Sarajevo, Catholic and Orthodox churches, mosques and Jewish synagogues proudly stand side by side. Centuries have passed by and they still stand out, welcoming travelers.

Just in one place you can find unbelievable natural beauty and richness this country possesses, all historical monuments you need to visit, as well as all tourist attractions that wait for you to come. Find some time to enjoy the beauties the city of Sarajevo and the whole of Bosnia-Herzegovina have to offer. Do not miss exploring some of the witnesses of history and times long past, monuments that still preserve the spirit of the old times and remain seals of historical events.

\* - according to data from 2013 Census of Population, Households and Dwellings in Bosnia and Herzegovina

# SIEGE OF SARAJEVO

## Sarajevo marks 1,000 days of war

The Siege of Sarajevo was the longest siege in the history of modern warfare. It took place during the Aggression on Bosnia and Herzegovina, on one side having the poorly equipped defending forces of the B&H Government, after the independence referendum held on 29 February and 1 March 1992, and the Yugoslav People's Army (JNA) and Paramilitary forces formed of the part of Bosnian Serbs who, located on the hills around Sarajevo, besieged the city from 5 April 1992 to 29 February 1996. The siege brought about dramatic human casualties and large scale destruction. Total 11.541 people were killed and 50.000 wounded during the siege, 85% of all casualties were civilians. Due to killings and forced migration, by 1995 the population of Sarajevo decreased to 334.663 or 64% of the pre-war population. The siege of Sarajevo has been declared officially over after almost four years of continuous shelling and sniper attacks. Under the terms of the Dayton Peace Agreement, signed in December 1995, the war ended. The reconstruction of Sarajevo started as soon as the war ended. Modern office buildings and skyscrapers have since been constructed throughout the city.

Marking the 20th anniversary of the beginning of the siege of Sarajevo

# DID YOU KNOW THAT SARAJEVO:

- was the first city in Europe and the second city in the world to have a full-time operational electric tramway network running through the city, the first being San Francisco?

- in 1914 was the site of assassination of Franz Ferdinand, heir presumptive to the Austro-Hungarian Empire, whose death led to the start of World War I?

- has been under the longest siege of over 1500 days in modern military history during the Aggression on Bosnia and Herzegovina?

- hosted the 14th Winter Olympic Games in 1984?

- is the best city to visit in 2014, based on many touristic magazines and guides?

- is one of the best biker adventure destinations according to National Geographic?

- is called European Jerusalem because of the variety of religious objects, beliefs and customs present ?

RECTORATE & FACULTY OF LAW, UNIVERSITY OF SARAJEVO

# WHY CHOOSE UNIVERSITY OF SARAJEVO?

## HISTORY

The University of Sarajevo is the lead university in Bosnia and Herzegovina and one of the leading universities in the region. This is first university in Bosnia and Herzegovina, originally established in the 16th century. Its oldest member institutions are Gazi Husrev-Bey Library (1537), National Museum of B&H (1888) and Catholic Theology (1890). The modern university has been re-established in 1940s. This is traditionally the most popular and the most prestigious higher education institution in Bosnia and Herzegovina.

## MISSION AND VISSION

Since its founding, the University of Sarajevo is oriented towards international cooperation, building bridges between cultures, and establishing formal partnerships with universities from all over the world. The University of Sarajevo is open to anyone who wishes to contribute, with intellectual and moral qualities, to development of education and science, within the principles of the University autonomy which is the main condition for academic freedom of individual expression and affirmation of skills and qualities. The orientation of the University of Sarajevo, which we wish to be recognised for, is the integration into the world academic processes and continuous efforts towards the improvement of our international reputation. Through its teaching and scientific research, the University of Sarajevo is responsible for educating competent, capable, creative and internationally recognizable professionals in all areas of interest to Bosnia and Herzegovina, in order to be able to provide quality professional services in modern economy in the political, social, legal and cultural context of Europe and the world.

## ORGANISATION

This public institution offers study and research opportunities in 25 Faculties and Academies, as well as associate institutions. Today, having 34,000 enrolled students, it ranks among the largest universities in the world in terms of enrollment. Since the University opened its doors, over 134.649 students have received Bachelor's degrees, 8.539 received Master's degrees

and 2.909 Doctorate degrees in 44 different areas. The main objective of all the university's current activities is to raise the quality of studies, to create a contemporary university of European origins, which will respectfully represent Bosnia & Herzegovina on international level and to promote the traditional, historical, cultural, scientific and artistic values of the South - Eastern Europe.

## BOLOGNA EDUCATION SYSTEM

In September 2003, Bosnia and Herzegovina signed and accepted the European strategic goals in the field of higher education, as expressed in the Declaration of the European Higher Education Ministers made in Bologna (1999), as well as the subsequent development of this concept.

## INTERNATIONALISATION

The University of Sarajevo enjoys partnerships with over 100 universities in Europe, the USA, Canada, and the Middle East. University of Sarajevo is an equal partner in mobility programs for students and members of staff, and it is open for study and research activities (Erasmus Mundus, CEEPUS, Mevlana, FP7 and others).

## MOBILITY

Thanks to partnerships in numerous international projects, between 2008 and 2013 the University of Sarajevo had a total of 2.913 mobility visits. Of that, 1.492 students, professors and TAs of the University of Sarajevo visited partner universities across the world, and 1.421 students, professors and TAs from partner universities had their mobility visits to various faculties and academies of the University of Sarajevo. All these mobility visits were accompanied by the European learning agreement and grade transcript. It should be noted that some 1.500 students from the region, non-B&H nationals, study at our University, and are subject to special facilities granted to students from countries of former Yugoslavia.

## DAAD

As part of the DAAD project that has been going on for several years, initiated by the Stability Pact for South Eastern Europe, six courses were held in Sarajevo in different areas of mathematical sciences, for doctoral candidates and young researchers from Albania, Bosnia and Herzegovina, Bulgaria, Montenegro, Croatia, Kosovo,\* Macedonia, Moldova, Germany, Romania, and Serbia. At the same time, during 2011 and 2012, two three-week "Sarajevo Summer Schools of Applied Mathematical Techniques" as part of the DAAD programme entitled "Go East Sommerschule," organised by the Faculty of Mechanical Engineering, Faculty of Natural Sciences and Mathematics and the DAAD Alumni in B&H, with participation of 18 second-cycle final year students from several German universities.

## FULBRIGHT

By participating in the Fulbright programme, the University of Sarajevo has had a total of 48 mobility exchanges with US universities since 2008, namely 24 mobility visits by faculty members of the University of Sarajevo to the US and 24 mobility visits by faculty members from US universities who came to the University of Sarajevo. Eleven lecturers visited our University in the same period.

## ERASMUS MUNDUS

In 2008, the European Union gave Bosnia and Herzegovina an opportunity to participate in a programme designed for countries not participating in ERASMUS as the largest programme for financial and organisational incentive for academic mobility. Since then, the University of Sarajevo has been able to participate in each of the projects financed in this way

(a total of 15), thus allowing students, professors and TAs to select from among 48 universities in EU member states. At the same time, organisational units of our University hosted students and faculty members from the EU. The following projects were implemented as part of the ERASMUS MUNDUS programme: BASILEUS I-V, JoinEU-SEE I-V, STEM, SIGMA, EUROWEB I-II, ERAWEB. Within these projects alone, a total of 273 students and faculty members visited universities in EU member states, and our University hosted 175 students and faculty members.

## TEMPUS

In the period between 1996 and 2012, including the TEMPUS preparatory phase, the University of Sarajevo participated in a total of 104 TEMPUS projects; of that, in 84 as a partner, in 16 as the academic coordinator, and in four as the grant holder. Since 2008, the University of Sarajevo has been the grant holder in four TEMPUS projects and currently participates in 23. A number of mobility visits by University of Sarajevo professors and TAs to partner universities in the EU have been part of these projects, as have visits by partner university Faculty members to the University of Sarajevo. Numerous study visits and training events have been organised as well.

## MEVLANA

In 2013, the University of Sarajevo signed an agreement with Turkish higher education institutions within the Mevlana Exchange Programme and this year 10 representatives of Turkish universities will visit our University and 15 faculty members from our University will visit Turkish higher education institutions.

*These data are provided from the Self-Evaluation report of the University of Sarajevo for 2013*

## STUDY STRUCTURE

The three-cycle system of study at the University of Sarajevo leads to the following academic titles: *bachelor*, upon completion of the first cycle, *master*, upon completion of the second cycle, and *doctor of science/arts*, upon completion of the third cycle. An integrated programme of the first and second cycle at schools of the medical group leads to the title of a doctor of medicine/dental medicine/veterinary medicine, and a master of pharmacy.

## TEACHING LANGUAGE

The majority of courses and study programmes are in Bosnian/Croatian/Serbian (B/C/S) and it is required that candidates have some level of knowledge of the host country's language before arrival. Bosnian/Croatian/Serbian are languages with three different language standards and minor regional variations. However, there are cases where complete study programmes are in English (such as the programmes offered by the Centre for Interdisciplinary Studies, and by the School of Economics and Business which offers undergraduate and postgraduate joint programmes in cooperation with the Griffith College Dublin, Faculty of Business), or where certain courses can be provided in English. Please contact the administration of the institution you are interested in, and ask for course descriptions and language requirements. The University of Sarajevo member institutions offer a variety of study programmes within the Bachelor, Master, and Doctoral level of studies.

## SCIENTIFIC RESEARCH

It can be said that scientific research in Bosnia and Herzegovina that is in an alarming situation; the country lags behind in this area and this reflects more and more on its weakened competitiveness and low productivity of its economy, as well as its position on the regional and the global market. However, due mainly to personal efforts by Faculty members both during and after the war, the University managed to maintain its status of the most prestigious and the most developed scientific and higher education institution in the country. Scientific and artistic research at the University of Sarajevo is mainly located at Faculties, Academies and institutes in the areas of medicine, technical studies, natural science, botanical studies, social studies, humanities and arts.

## ACADEMIC INSTITUTIONS' GOVERNING BOARD:

**Prof. Dr. Muharem Avdispahić, dr. h. c.,** Rector

**Prof. Dr. Ugo Vlasisavljević,** Vice-rector for International Relations and Publishing

**Prof. Dr. Dženan Đonlagić,** Vice-rector for Finance

**Prof. Dr. Faruk Mekić,** Vice-rector for Science and Research

**Prof. Dr. Zehra Kreho,** Vice-rector for Teaching and Student Affairs

**Samir Arnautović,** Student Vice-Rector

**Dr. Sc. Suvad Konaković,** Secretary General

ACADEMY OF FINE ARTS, UNIVERSITY OF SARAJEVO

# EXCHANGE STUDENTS

**Exchange** student is a student (officially registered in a university or other higher education institution) who temporarily lives in a foreign country and attends courses or is involved in other academic activities. The exchange period lasts minimum 6 months and maximum 10 months. The exchange student does NOT receive a diploma from the host university. However, all academic results will be sent to his/her home university (transcript of records). Tuition fee is paid to the home university.

All applicants are kindly requested to respect the APPLICATION DEADLINES which are as follows:

- ⚠ **Not later than March** for the winter semester/academic year
- ⚠ **Not later than September** for the summer semester.
- ⚠ If the exchange is a part of any mobility program/project (e.g. Erasmus Mundus): **rules for the whole process of application are applied according to that mobility program/project.**

**Marzia Bona**  
**University of Bologna,**  
**Italy**

As an exchange student at the University of Sarajevo I had the opportunity to attend stimulating lectures given by brilliant professors. Conferences and parallel events have further enriched the educational opportunity of studying at this University.

## APPLICATION PROCESS:

### STEP 1:

You have shown the interest for exchange mobility! Good start!

### STEP 2:

Check with your International Relations Office the procedure for exchange mobility. Your home university can nominate you for your student exchange period at the University of Sarajevo by contacting our IRO offices.

### STEP 3:

Fill in application form and collect needed documents.

### STEP 4:

Application needs to be sent to the Faculty/Academy at the University of Sarajevo or its central office (we suggest previous contacts with the higher education institution to be made).

### STEP 5:

Complete applications will be studied by the University of Sarajevo (and its host member institutions).

### STEP 6

After the consideration, University of Sarajevo will inform you about exchange.

## APPLICATION DOCUMENTS:

If you express an interest to be an exchange student at the University of Sarajevo, you need to prepare certain documents, fill them in and have them signed by your home university representative(s). Next step is to send it to either to central International Relations Office of the University of Sarajevo or to the International relations departments at the *host* faculty or academy at the University of Sarajevo.

Application documents are:

- 1. Application Form** (can be found at [www.unsa.ba](http://www.unsa.ba) > International Relations > Mobility > Application documents, needs to be filled, signed and stamped by home university),
- 2. Learning Agreement** (can be found at [www.unsa.ba](http://www.unsa.ba) > International Relations > Mobility > Application documents, needs to be filled, signed and stamped by home university),
- 3. Motivation letter,**
- 4. Recommendation letter** (preferably from your professor who is familiar with your academic achievements and/or person who is familiar with your work experience - supervisor, etc),
- 5. Transcript of records,**
- 6. CV (Europass format),**
- 7. Passport (scan),**
- 8. B/C/S or English Certificate** (to prove your knowledge of Bosnian/Croatian/Serbian or English language in order to receive lessons instructions properly)

Documents are to be scanned and sent by email or by post mail. Before sending, please check with faculty/academy's representatives whether there is a need for any additional documents and to determine the way of sending the documents.

If and when you receive acceptance answer, you need to bring:

- 9. Birth Certificate** (valid document that gives information about your birth data).
- 10. Proof of non-criminal record** (needed for regulating residence permit)
- 11. Student visa** (if you own a passport that requires visa to Bosnia and Herzegovina, you need to regulate that before entering this country).

**Degree** student registers at the university abroad and is no longer a student from the university at home. He or she will obtain a diploma from the university abroad. Students applying to a foreign university will need to comply with the local admission requirements.

### TUITION FEES

The tuition fee for a study programme is reached by the Government of the Canton Sarajevo and it depends on the type of the programme. Information about tuition for individual programmes can be obtained from the faculty/academy of the University of Sarajevo.

If the *degree mobility* is a part of any mobility program/project (e.g. Erasmus Mundus), therefore rules for the whole process of application are applied according to that program/project.

# DEGREE STUDENTS

## APPLICATION PROCESS:

All students, including foreign citizens who wish to study at the University of Sarajevo need to complete a corresponding secondary school and have their diploma on graduation exam recognized.

**Admission to all university study programmes is restricted; i. e. the number of places is subject to an annual decision by the University Senate.**

The call for application is given in June every year. If there are available places, the call will be repeated in September. For a more detailed information search for information at the Faculty/Academy of the University of Sarajevo you wish to enrol.

### MINIMUM ADMISSION REQUIREMENTS:

**Bachelor programme:**  
*completion of a four-year secondary school.*

**Master programme:**  
*holder of the Bachelor degree diploma.*

**PhD programme:**  
*holder of Master degree diploma.*

**Ilona Jerič**  
**University of Ljubljana, Slovenia**

Living in city and country that has such a strong presence of historical, political components in everyday life requires recontextualization of previously obtained knowledge about environment. Out of the study coordinates - Sarajevo was really nice and inspirational experience; good music, good food, beautiful surroundings and charismatic people.

Before sending any documents, check with the Faculty or Academy representatives about the needed documents you need to send. All foreign documents must be translated into Bosnian/Croatian/Serbian and original foreign public document copies must be certified by a public notary.

# STAFF

**Staff** mobility refers exclusively to training, teaching and/or research activities.

MEETING OF FULLBRIGHT SCHOLARS AT THE UNIVERSITY OF SARAJEVO, 2012

### APPLICATION PROCESS:

The University of Sarajevo welcomes academic and non-academic staff from all over the world into our academic community. Our university strongly promotes international mobility, focussing on the importance of a tolerant and democratic international environment for students' successful learning, scientific and artistic research as well as their personal development.

Before applying, staff applicants need to have an already established contact with the host university (University of Sarajevo) in order to guarantee that the profile of the staff matches the thematic expertise of the host university.

More information regarding the staff mobility, especially about Faculties and Academies and its departments can be found in this guide, but we encourage you to contact our International Relations Office for additional information.

**Iztok Prezelj**

University of Ljubljana, Slovenia

I was able to work on scientific issues and also forge tight contacts with the staff in order to improve future cooperation. I also got to know Sarajevo and B&H which will influence my future writing about the region and relationship to EU and NATO.

If the *staff mobility* is a part of any mobility program/project (e.g. Erasmus Mundus), therefore rules for the whole process of application are applied according to that program/project.

A large group of approximately 20 exchange students are posing on a wide set of stone steps. They are dressed in casual summer attire, including t-shirts, jeans, and backpacks. Many are smiling and waving at the camera. In the background, a prominent, multi-story stone tower with arched windows stands on a hill. To the left, a mountain with a castle-like structure is visible under a clear blue sky. The scene is bright and sunny, with shadows cast on the steps.

EXCHANGE STUDENTS DURING THEIR VISIT TO MOSTAR, 2012

**ACADEMIC INFORMATION >>>**

# ACADEMIC CALENDAR

## 2014 - 2016:

### Winter semester 2014/2015

1 October - 15 January

### Summer semester 2014/2015

16 February - 12 June

### Winter semester 2015/2016

1 October - 15 January

### Summer semester 2015/2016

15 February - 17 June

### EXAMS

Apart of tests and work during lessons, complete exams are organized in given exam periods in months: January, February, April, June, July and September. It is advisable to check for exact dates directly with the department(s) concerned.

### PUBLIC HOLIDAY BREAK(S)

University of Sarajevo is closed for following dates:

**1-2 January - New Year**

**1 March - B&H's Independence Day**

**1-2 May - Labours Day**

**25 November - Statehood Day**

### RELIGIOUS HOLIDAYS

There is a break in the academic calendar for religious holidays such as Christmas (Catholic and Ortodox), Easter, Ramadan and Eid Bayram (dates vary according to the movement of the holiday day). In practice there is usually a break from classes over the New Year's period. The exact dates are determined by each department so please check with the programme/ department to confirm when classes/ assignments are paused.

### REGISTRATION

At the University of Sarajevo registration process differs depending on the UNSA Faculty/Academy. What candidates will surely need to take from home before arrival is: **PROOF OF NON-CRIMINAL RECORD** and **BIRTH CERTIFICATE**. Check for any additional documents with **UNSA Faculties or Academies**.

These documents must be issued by official services (before arrival) and translated in English by the official court interpreter. The coordinator at the International Office guides the exchange students through the process of enrolment/registration at the faculty's student service.

### WELCOME DAYS

The International Relations Office of the University of Sarajevo organizes *welcome days* for foreign students in specific mobility programs at the beginning of each school year.

International students will be arriving in different periods, so for the time being there is no specific date for a welcome day for this program. However, the University of Sarajevo's International Relations Office is there to support logistically all incoming students upon arrival and during their stay.

### LANGUAGE SUPPORT

Before or during their application for the exchange period candidates are advised to contact the administration of a specific Faculty or Academy and ask for course descriptions they are interested in as well as to enquire about the language of instruction and other conditions for academic mobility. If the course you want to do is only held in Bosnian/Croatian/Serbian language, the International Relations Office will try to help you with arranging consultations, literature and exams in English, by contacting professors who are willing to help you. Also, University in Sarajevo offers language school for foreigners called "Let's Learn Bosnian". Classes are organized for the small groups who are being taught Bosnian for the improved daily communications.

### INDEX/GRADE BOOK

With your Letter of Admission you also receive an application form for a student Index-Grade Book. An Index-Grade Book is a small, dark blue handbook in which all your grades will be written by professors. Every student has one. When you arrive in Sarajevo, you will need to buy Index-Grade Book at the Faculty/Academy. The Index-Grade Book identifies you as a student at the University and you must remember to bring it when you sign up for and sit your exams.

### EXAMS

Registration for exams is required by most UNSA Faculties and Academies. When you begin your studies, we recommend that you inquire about how and when to register for exams in the Faculties/ Department(s) where you are studying. Note that the procedure and deadline may vary depending on the department. It is extremely important that you register correctly and in due time for exams as you will otherwise not be allowed to take the exam(s). At the University of Sarajevo students are assessed after taking one of the following types of examinations or active participation. In addition, some courses may require the successful completion of written as well as oral assignments during the semester.

### ACADEMIC PERFORMANCE & GRADING SYSTEM

Academic performance is either graded according to the 6 - scale or evaluated by a pass/fail. If your home institution requires that all your work be evaluated according to the 6 - scale this may be arranged with the lecturer. After completing your period of study at the University of Sarajevo, you will receive a

transcript of your academic record (please also refer to the chapter on Transcript of Academic Record). A 5 -10 grading scale is used at the University of Sarajevo (with 6 as a pass level).

**10(A) = Excellent** (outstanding performance with only minor errors)

**9 (B) = Very Good** (above the average standard but with some errors)

**8 (C) = Good** (generally sound work with a number of notable errors)

**7 (D) = Satisfactory** (fair but with significant shortcomings)

**6 (E) = Sufficient** (performance meets the minimum criteria)

**5 (FX) = Fail** (is not written in index)

### ECTS - EUROPEAN CREDIT TRANSFER SYSTEM

1 ECTS credit is equivalent of approx. 30 working hours. The annual workload is 60 ECTS credits. The University of Sarajevo is committed to the implementation of the ECTS, which eases the process of credit transfer among EU universities. The ECTS defines a full study load for one year as 60 ECTS credits. The number of credits awarded for each bachelor and graduate course varies depending on the workload. To make sure that you are able to transfer the credits earned at the University of Sarajevo, it is important that your home institution approves your intended study programme.

Be aware that credits for courses are only awarded if you meet the course requirements. Studying is a full time job, and in addition to attending classes, you will be expected to spend much time doing research in the library.

### DEGREE AND QUALIFICATIONS

The higher education system in Bosnia and Herzegovina is organized in three cycles as follows:

The first cycle of 180 - 240 ECTS (three or four years of full time study) to obtain the degree of **Bachelor** (bakalaureat).

The second cycle of 60 - 120 ECTS (one or two years of full time study) leads to a **Master** degree (total of 300 ECTS - with the first cycle).

The third cycle of 180 ECTS (three years of full time study and/or research) to obtain a **PhD** degree.

### MEDICAL SERVICES

The Sarajevo Canton Public Institution - Student Healthcare Institute of the University of Sarajevo (the Institute) provides primary specialist and counselling healthcare to students at the University in Sarajevo.

**We recommend informing yourself upon your arrival, before case of emergency happens.**

### INSURANCE

We strongly encourage you to purchase general insurance (accident and liability) prior to your departure for Bosnia and Herzegovina. Contact your own international office for further advice on where to take our insurance policy. Alternatively you may take out an insurance policy with international Health Insurance (IHI). If you have chronic medical problems requiring prescription medication, it is a good idea to bring copies of your medical history issued by your local doctor.

**Please note that medicines are not free in Bosnia and Herzegovina.** For more info:

**E-mail:**

info@zdravljestudenata.ba

**Web:**

www.zdravljestudenata.ba

Working hours of the Institute are:

**7.30 am to 7 pm**

**Monday - Friday**

**7.30 am to 1 pm**

**on Saturday**

The Institute is closed on Sunday.

### LIBRARY FACILITIES

University of Sarajevo has a main national library which can be used for studying and research. Also, every faculty and academy of our university have its own library area with study books and materials. Some of the libraries require previous registration with a fee. Do check with the student services at the faculty/academy upon your arrival.

### INTERNET AVAILABILITY

Broadband internet access is widely available throughout the City of Sarajevo (cable, ADSL, wireless) but it depends also on your accommodation (ask for details). Prices and speeds are changing (currently for 15 Euros per month you can get 1-2Mbit flat rate). Many faculties and academies have their own computer rooms and internet availability. Also, beside internet cafes, many cafes and bars have free Wi-Fi.

### STUDENTS' PARLIAMENT

Student Parliament is formed through student associations at the Faculties, Academies and associated member institutions. It works on development and improvement of the quality of the studies and student's standard. Student Parliament will be always focused on international relations, welcoming foreign students and making them available for their requires. More info on: [www.spus.ba](http://www.spus.ba).

### LIVING COSTS

Rough estimates of living costs for a single person per month:

Housing 200 €

Meals 300 €

Books 50 €

Local transportation 25€

Pocket money 150 €

**To save money, we recommend buying a monthly ticket for public transport services. There is a student discount, so make sure you give right information when buying tickets or any necessities.**

# ACCOMMODATION

The Sarajevo Students' Center is a public institution providing accommodation to full-time students of the University of Sarajevo. There are two student dorms in Sarajevo:

The **BJELAVE STUDENT DORM** offers foreign students rooms, with its capacity of 1000 beds. It's located in the central part of Sarajevo.

The **NEDŽARIĆI STUDENT DORM** has a capacity of 1500 beds and is located few kilometres away from the centre of Sarajevo. The dorms have the following facilities: cafeteria, TV room, multimedia and IT centre, study rooms, sports facilities. Students apply for accommodation at the student dorms through an advertisement published for each year in mid-June

before the start of the academic year.

**However, for international students there are rooms available without advertisement.**

The room and board (two meals: lunch and dinner) are made available from 15<sup>th</sup> of September to 15<sup>th</sup> of July, i.e. for the 10 months that make up the academic year.

Students must pay the full price of the room and board at the Student Dorms, which (currently) amounts to 150 € per month. In the summer vacation period, 15<sup>th</sup> July - 25<sup>th</sup> October Student Centre provides services to private guests, members of various cultural, sports, educational and other events taking place in Sarajevo, and students excursions.

We can accommodate up to approximately 1500 guests at the student dorms Nedžarići and Bjelave. All additional information about applying for room and board at the Student Dorms is available at:

## STUDENT CENTRE

### Email:

[justudsarajevo@yahoo.com](mailto:justudsarajevo@yahoo.com)

Also, there are private accommodations available.

**RESIDENCE PERMIT**

Your registration must take place in first 60 days of your staying in Sarajevo and Bosnia and Herzegovina.

**Steps to get residence permit:****GATHER DOCUMENTS**

You must prepare next documents:

- 1 - Copy of your passport** (copy of page with your picture and data, and with stamp of entry)
- 2 -contract/lease of your apartment**
- 3 - Copy of landlords' ID card**

**VERIFICATION**

Before going to the *Office for Foreign Affairs* you will need to do the verification of above mentioned at the Center Municipality (Općina Centar, location ① on map).

NOTE: Verification of documents in municipality is free of charge for students. For the verification, your landlord must accompany you.

**FIRST REGISTRATION**

Go to the *Office for foreigner affairs* (location ④ on map) to get first registration done and bring above verified documents. You will receive one document (First Registration Document).

**SECOND REGISTRATION**

Before you go to that office again you will need the following documents:

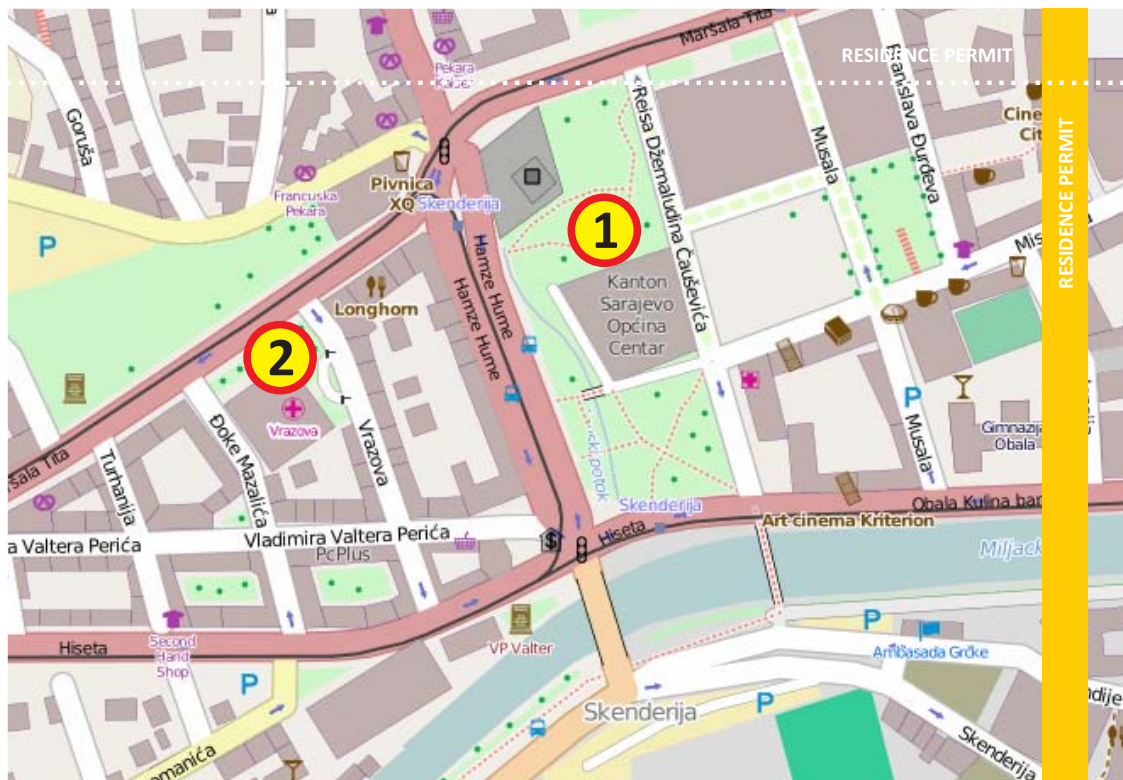

- You have to fill request for the issuance of permanent resident permit,
- You need a photo (35x45mm, like for passport),
- 2 verified copies of your passport,
- Verified copy of the First Registration Document,
- Residence Permit Certification (given in the International Relations Office (IRO) at the Rectorate which states that you are exchange

student at the University of Sarajevo and free of tuition),

- Certificate about classes of Bosnian/Croatian/Serbian that you follow as a part of Orientation program (given by IRO or lectures),
- Medical certificate (you have to go on location ③ on map (Importanne Center) where you will have to do HIV test, after which you will need to go to location ② on map (Vrazova Medical Center) where you will get medical certificate for resident permit. Test and certificate costs 140BAM/KM = 71 €),
- Verified contract for your accomodation,
- Proof of non-criminal record (you need to bring this document from your home country upon your arrival),
- Proof of payment of administration tax (100 BAM/KM = 51 €).

**NOTE: All documents must be translated on Bosnian/Croatian/Serbian.**

A person with long dark hair, wearing a black jacket, red pants, and black boots, is sitting on a rocky ledge. They are holding a phone to their ear with their right hand. The ledge is part of a stone structure, possibly a cave or a fortification. In the background, a wide river flows through a lush green landscape with trees and a sandy bank. The scene is captured from a high angle, looking down at the person and out over the river.

# INTERNATIONAL RELATIONS >>> OFFICE

EXCHANGE STUDENTS DURING THEIR VISIT TO POČITELJ, 2012

## INTERNATIONAL RELATIONS OFFICE

The University of Sarajevo is not a traditional campus university, and if you are used to a campus environment, you may find it very different to study here. The Faculties and Academies are spread at different locations across the capital. The UNSA International Relations Office is located in the Rectorate (the central University administration offices, in the same building as the Faculty of Law).

We will assist you with the issues of admission, housing, student counseling, and orientation programs, including various social events, with the aim to help you meet other international students. Living and studying away from home can be challenging experience - particularly in the beginning of your stay. At the International Relations Office you have the opportunity to ask questions in informal surroundings. We will be happy to help you, or to point you in the right direction to where you can get help regardless of whether your questions relate to your study programme, personal problems, or basic practical issues.

The University of Sarajevo is a partner in many academic programs which allows its students and members of staff to be a part of mobility processes and spend certain period on the international partner universities, and also to be a host university to the students and members of staff from international universities. The most popular mobility programs are ERASMUS MUNDUS, TEMPUS, CEEPUS, Best of South-East-Europe, Višegrad Fund, etc. ERASMUS MUNDUS is the frequent program and thanks to it, University of Sarajevo was a host university to over 150 students and members of staff from EU. International Relations Office is very active in promoting our University through info days, fairs, promotional materials, e-newsletters and news. The contents can be found on our web site [www.unsa.ba](http://www.unsa.ba) (click International Relations).

## OUR ACTIVITIES

### INFO DAYS

Aiming to inform students and members of staff about mobility programs and scholarship activities to EU and non EU countries, IRO organizes info days at the faculties, academies, centers and other associate members of the University of Sarajevo.

### SCHOLARSHIP FAIR

IRO organizes scholarship fair for the whole Bosnia and Herzegovina area, which is focused on raising the awareness of scholarships and promoting mobility programs affecting the process of internationalisation of the University of Sarajevo.

### ORIENTATION WEEK(S)

IRO organizes orientation program for incoming and outgoing students and staff members. This is an opportunity to provide them with all academic and administration informations for their better mobility period at host university.

### LET'S LEARN BOSNIAN

IRO organizes language school for incoming students and staff members called "Let's learn Bosnian". School is organized as intensive course before official academic lessons start (as a part of Orientation week) and as courses during first semester.

### TEMPUS

Our office is specialized for project management for several tempus projects (both grant-holder's and co-beneficiary's). In Tempus IV framework, University of Sarajevo participated in 27 tempus projects (4 as grant-holders and 23 as co-beneficiaries).

### KING BAUDOUIN FOUNDATION

IRO receives an annual grant of the King Baudouin Foundation to support the work of fostering exchange between the Western Balkans and the EU. Through mutual work of KBF and partner universities from Western Balkans, University of Sarajevo maintains unified database named *Scholarships for Western Balkans*: [www.s4wb.eu](http://www.s4wb.eu)

### CARRIER & ALUMNI

IRO participates in the project that prepares realisation and instalment of the Carrier center, as well as implement the process of creating needed database to found the Alumni Association of the University of Sarajevo.

### PUBLICATIONS

For better promotion, IRO published several publications about mobility projects, documents preparation, applications instructions in order to ease the process for students and members of staff.

University of Sarajevo has its central International Relations Office, but also every Faculty, Academy and other associate member at our University has its own International Relations department (vice-dean, coordinator or contact person for international relations). They will provide even more exact information about academic activities, exams and other information for your better mobility. They are here for you if you have any questions regarding your study plan, which courses to take, how many ECTS points are required, prerequisites to courses etc. However, you can always contact us first and we shall appoint you to the right direction.

International Relations Office, University of Sarajevo

SCHOLARSHIP FAIR

### 01.1. AGRICULTURE SCIENCES

**Study programmes** include topics such as Agriculture | Agriculture Economics | Food Science and Technology | Horticulture | Animal Husbandry

#### About the programme

Agricultural science is a broad multidisciplinary field that encompasses the parts of exact, natural, economic and social sciences that are used in the practice and understanding of agriculture. Agriculture is the set of activities that transform the environment for the production of animals and plants for human use. The aims of the programme is to strengthen the influence on the food policies and production to contribute the quality of living in Bosnia and Herzegovina and region.

#### Teaching

Teaching methods include lectures, seminars and personal tutorials, practical sessions, guest speakers. This is all arranged in correlation with lectures/ professors. You will also spend a significant amount of time in doing personal study.

#### Language

Lectures are given in Bosnian/ Croatian/Serbian. You have to check with the Faculty's International Relations Department whether they give the opportunity to listen lectures, have mentorship or paper work in English.

#### Assessment

Assessment is by courseware, classroom tests and examinations. Group learning, teamwork, individual work and communication skills are assessed through group studies and reports as well as presentations. Practical work is also a part of the examinations.

#### DEGREE AND QUALIFICATIONS

The first cycle lasts 3 years of study (total of 180 ECTS) in order to obtain the degree of Bachelor.

The second cycle lasts 2 years of study (total of 120 ECTS) and leads to a Master degree.

The third cycle lasts 3 years of study (total of 180 ECTS) in order to obtain a PhD degree.

#### CAREER OPTIONS

Work in agricultural sectors ranges from the entirely academic pursuits of research and teaching to inspection and other supervisory work to commercial activities of establishing farms, plantations, orchards and carrying on exports of produce from them.

#### Programmes are taught at:

#### FACULTY OF AGRICULTURE AND FOOD SCIENCES

#### Contact:

Address: Zmaja od Bosne 8 (Campus), 71000 Sarajevo  
Contact person: Prof. Dr. Hamid Čustović, Vice-Dean

##### PhD

Agricultural Sciences  
Food Science Technologies

All information about PhD programmes can be found at:  
[www.ppf.unsa.ba/en/Study/PhD](http://www.ppf.unsa.ba/en/Study/PhD)

## 01.2. FORESTRY

**Study programmes** include topics such as Forestry | Horticulture

### About the programme

The goal of the programme is to educate young people to understand the nature and its laws. But this mission is implemented through the knowledge of elderly generations, who use the newest knowledge and scientific accomplishments to influence and control forest and urban ecosystems. These programmes explore and study general, ecological, technical and socio-economical scientific factors which influence the mechanism of nature.

### Teaching

Teaching methods include lectures, seminars and personal tutorials, practical sessions, guest speakers. This is all arranged in correlation with lectures/ professors. You will also spend a significant amount of time in doing personal study.

### Language

Lectures are given in Bosnian/ Croatian/Serbian. Most of the subjects can be taught in English, and the Faculty offers mentorship, exams and paper work in English.

### Assessment

Assessment is by courseware, classroom tests and examinations. Group learning, teamwork, individual work and communication skills are assessed through group studies and reports as well as presentations. Practical work is also a part of the examinations.

### DEGREE AND QUALIFICATIONS

The first cycle lasts 3 years of study (total of 180 ECTS) in order to obtain the degree of Bachelor.

The second cycle lasts 2 years of study (total of 120 ECTS) and leads to a Master degree.

The third cycle lasts 3 years of study (total of 180 ECTS) in order to obtain a PhD degree.

### CAREER OPTIONS

Graduates progress into a diverse range of careers and employment sectors. Your work can help reducing the climate change, protecting ecosystems, developing renewable energy options, and more. Forests contribute much the ecology and economy of the nations and play a major role in improvement of the people's life quality. Issues like global warming, deforestation, global climatic change, water scarcity, natural disasters, etc, are all related to the effective and controlled use of forest wealth.

### 02.1. ARCHITECTURE

**Study programmes** include topics such as Architecture | Interior Design | Urban Planning

#### About the programme

This programme aspires to lead Bosnia and Herzegovina in the creation of sustainable designed environments, both digital and physical, to enhance the collective human experience. Our teaching and research programs foster critical and creative thinking across the disciplines of Architectural Science, Design and Urban Planning and Policy.

#### Teaching

Teaching methods include lectures, seminars and personal tutorials, practical sessions, group design, guest speakers. This is all arranged in correlation with lectures/ professors. You will also spend a significant amount of time in doing personal study.

#### Language

Lectures are given in Bosnian/ Croatian/Serbian. You have to check with the Faculty's International Relations Department whether they give the opportunity to listen lectures, give paper work or take exams in English.

#### Assessment

Assessment is by courseware, classroom tests and examinations. Group learning, teamwork, individual work and communication skills are assessed through design group studies and reports as well as presentations. Practical work is also a part of the examinations.

### DEGREE AND QUALIFICATIONS

The first cycle lasts 3 years of study (total of 180 ECTS) in order to obtain the degree of Bachelor.

The second cycle lasts 2 years of study (total of 120 ECTS) and leads to a Master degree.

The third cycle lasts 3 years of study (total of 180 ECTS) in order to obtain a PhD degree.

### CAREER OPTIONS

The architectural process is complex and exhaustive, creating many career opportunities for architecture students. Many students choose to become building architects, landscape architects or architectural drafters, among other occupations. Since they contribute to the design of structures and space people occupy every day some form of professional training is required from architectural professionals.

## 02.2. TRANSPORT

**Study programmes** include topics such as Transport | Traffic

### About the programme

This programme has designed to meet the continuous demands caused by increasing numbers of motor vehicles, the need to modernize railways, and the mechanization and automation of building processes and industrial materials transporting systems, as well new communication technologies. Degree programs provide a thorough study of basic subjects followed by concentration in transportation and communication engineering.

### Teaching

Teaching methods include lectures, seminars and personal tutorials, practical sessions, group design, guest speakers. This is all arranged in correlation with lectures/ professors. You will also spend a significant amount of time in doing personal study.

### Language

Lectures are given in Bosnian/Croatian/Serbian. You have to check with the Faculty's International Relations Department whether they give the opportunity to listen lectures in English or any other language.

### Assessment

Assessment is by courseware, classroom tests and examinations. Group learning, teamwork, individual work and communication skills are assessed through design group studies and reports as well as presentations. Practical work is also a part of the examinations.

### DEGREE AND QUALIFICATIONS

The first cycle lasts 4 years of study (total of 240 ECTS) in order to obtain the degree of Bachelor.

The second cycle lasts 1 years of study (total of 60 ECTS) and leads to a Master degree.

The third cycle lasts 3 years of study (total of 180 ECTS) in order to obtain the degree of PhD.

### CAREER OPTIONS

Career options in communications are varied. Students may choose through academic courses and internships areas of specialization. The majors rang from planning, supply chain management, and logistics to marketing and engineering.

### 03.1. FINE ART & DESIGN

**Study programmes** include topics such as Fine Art | Design | History of Arts

#### About the programme

Well known professors and people of culture and arts, already famous and acknowledged in Zagreb, Belgrade and Ljubljana created new, education system, qualitative lessons, which gave this University a reputation of a respected and acknowledged institution. Students are trained for certain art activity in the way that satisfies European criteria of art education.

#### Teaching

Teaching methods include lectures, seminars and personal tutorials, exhibitions, practical sessions, group design, master workshops, guest speakers, participation in winter and summer schools and festivals in Europe and around the world. These activities are arranged in correlation with lectures/professors. You will also spend a significant amount of time in doing personal study.

#### Language

Lectures are given in Bosnian/Croatian/Serbian. You have to check with the Academy's International Relations Department whether they give the opportunity to listen or take exams in English.

#### Assessment

Assessment is done by courseware, classroom tests and examinations. Group learning, teamwork and communication skills are assessed through design group studies and reports as well as presentations.

#### DEGREE AND QUALIFICATIONS

The first cycle lasts 4 years of study (total of 240 ECTS) in order to obtain the degree of Bachelor.

The second cycle lasts 1 year of study (total of 60) and leads to a Master degree (total of 300 ECTS - with the first cycle).

#### CAREER OPTIONS

After graduating, graduates predominately stay in Art industry. They are involved in product and graphic design, usually combining advertising and marketing, fine artist, or they continue their education for teaching career. There are many different career paths available for people with the passion and artistic skills such as architect, interior designer, fashion designer. The risks, rewards and benefits of these options will vary depending on the job and the individual.

## 03.2. PERFORMING ARTS

**Study programmes** include topics such as | Cinematography | Acting | Directing

### About the programme

The programmes were created in 1981, when the first generation of students started with the Department of Acting. Since then, the Academy has been expanded in more three departments, produced and accomplished numberless successes and contributed to the BH film and theater. To name a few: Academy Award in 2001 for the Best Foreign Film, The Golden Bear in 2007 for the best film at the Berlin Film Festival, Silver Bear in 2013 at the Berlin Film Festival and many other regional and world awards.

### Teaching

Teaching methods include lectures, seminars and personal tutorials, practical sessions, group design, guest speakers. Practical sessions are arranged at the open scene "Obala" where all the public presentations and student projects are presented. Also, as a part of practical session, students cooperate with Sarajevo's theater, TV and movie industry. This is all arranged in correlation with lectures/professors. You will also spend a significant amount of time in doing personal study.

### Language

Lectures are given in Bosnian/Croatian/Serbian. Academy offers lectures, as well as mentorship and exams in English. Recommended to contact Academy for additional informations.

### Assessment

Assessment is by courseware, classroom tests and examinations. Group learning, teamwork, individual work and communication skills are assessed through design

group studies and reports as well as presentations. Practical work is also a part of the examinations.

### DEGREE AND QUALIFICATIONS

The first cycle lasts 3 or 4 years of study (depending on the programme) gaining total of 180/240 ECTS in order to obtain the degree of Bachelor.

The second cycle lasts 1 or 2 years of study (depending on the programme) gaining total of 60/120 ECTS and leads to a Master degree (total of 300 ECTS - with the first cycle).

### CAREER OPTIONS

After graduating at the Academy of Performing Arts, graduates predominately stay in art industry, choosing the career of an actor/actress, producer, screen player. They can be involved in many projects, regarding the art (TV, theater), working in media or choose further education for teaching career. Studying drama allows students to keep their options open - after all, many a university graduate has gone on to act professionally.

**Programmes are taught at:**

Studies

### 03.3. MUSIC AND MUSICOLOGY

**Study programmes** include topics such as Music |

#### About the programme

The programmes were created many decades ago, and ever since its students and staff are active partner in many musical and social events in the city and across the country. We are proud member of The European Association of Conservatoires (AEC) where our Academy contributes to the European cultural and educational network with 280 member institutions for professional music training in 55 countries.

#### Teaching

Teaching methods include lectures, seminars and personal tutorials, practical sessions, group design, guest speakers. Practical sessions are organized through solo acts, concerts, etc. This is all arranged in correlation with lectures/professors. You will also spend a significant amount of time in doing personal study. Previous background in music is an asset for education at the Music Academy.

#### Language

BA lectures are given in Bosnian/Croatian/Serbian, while MA and PhD lectures, mentorship, exams or paper work can be given in English.

#### Assessment

Assessment is by courseware, classroom tests and examinations. Group learning, teamwork, individual work and communication skills are assessed through design group studies and reports as well as presentations. Practical work is also a part of the examinations.

#### DEGREE AND QUALIFICATIONS

The first cycle lasts 4 years of study (total of 240 ECTS) in order to obtain the degree of Bachelor.

The second cycle lasts 1 year of study (total of 60) and leads to a Master degree (total of 300 ECTS - with the first cycle).

The third cycle lasts 3 years of study (total of 180 ECTS) in order to obtain a PhD degree.

#### CAREER OPTIONS

After graduating at the Music Academy, graduates predominately stay in art industry, focusing on his/her musical career, or they can be involved in many projects, regarding the art (TV, theater, orchestra), working in media or choose further education for teaching career.

#### Programmes are taught at:

#### MUSIC ACADEMY

#### Contact:

Address: Josipa Štadlera 1/II,  
71000 Sarajevo  
Contact person: Prof. MSc. Maja  
Ačkar Zlatarević, Vice-Dean

Fax: +387 33 444 896  
Email: ackar\_maja@yahoo.com  
Web: www.mas.unsa.ba

#### Offered programmes:

##### BACHELOR

Composing  
Orchestral Conducting  
Choral Conducting  
Solo Singing  
Piano  
Percussions  
Harp  
Violin  
Viola  
Cello  
Double Bass  
Guitar  
Flute  
Oboe  
Clarinet  
Fagot  
Trumpet  
Trombone  
(French) Horn  
Saxophone  
Musicology  
Ethnomusicology  
Music Theory and Pedagogy

##### MASTER

Composing  
Orchestral Conducting  
Choral Conducting  
Course on Concerts  
Course on Opera  
Course for Piano, Percussions, Harp and Related Instruments/Piano,  
Piano Accompaniment, Percussions,  
Harp  
Violin, Viola, Cello, Double Bass  
Course  
Guitar  
Flute, Oboe, Clarinet, Fagot,  
Saxophone, Trumpet, Trombone,  
Horn  
Accordion  
Musicology  
Ethnomusicology  
Music Theory and Pedagogy

##### PhD

Composing  
Orchestral Conducting  
Choral Conducting  
Course on Concert

**Course on Opera**

Course for Piano, Percussions, Harp and Related Instruments/Piano, Piano Accompaniment, Percussions, Harp

Violin, Viola, Cello, Double Bass Course

Guitar

Flute, Oboe, Clarinet, Fagot,

Saxophone, Trumpet, Trombone, Horn

Accordion

Musicology

Ethnomusicology

Music Theory and Pedagogy

### 04.1. BUSINESS STUDIES, ECONOMICS & MANAGEMENT

**Study programmes include**

topics such as Business | Technology | Accountancy | Economics | Management | Marketing

#### About the programmes

These programmes targets students who want to work as financial accountants or controllers, managers, marketing and advertising or to be involved in economical growth. Programs that are taught include topic such as Global Economy, Economic Analysis, Economy of Europe, Marketing, Management and Organizations, International Business, Accountancy and Audit, and others.

#### Teaching

Teaching methods include lectures, seminars and personal tutorials, practical sessions, guest speakers. This is all arranged in correlation with lectures/ professors. You will also spend a significant amount of time in doing personal study.

#### Language

Lectures are given in Bosnian/Croatian/Serbian. Some BA and MA programmes are lectures in English, while PhD can be given in English. Seminar papers and mentorship are possible to be provided in English, too. You have to check with the Faculty's International Relations Department whether they give the opportunity to listen your preferred lectures in English or any other language.

#### Assessment

Assessment is by courseware, classroom tests and examinations. Group learning, teamwork, individual work and communication skills are assessed through group studies and reports as well as presentations. Practical work is also a part of the examinations.

#### DEGREE AND QUALIFICATIONS

The first cycle lasts 3 years of study (total of 180 ECTS) in order to obtain the degree of Bachelor.

The second cycle lasts 2 years of study (total of 120 ECTS) and leads to a Master degree.

The third cycle lasts 3 years of study (total of 180 ECTS) in order to obtain a PhD degree.

#### CAREER OPTIONS

Given the analytical nature and diversity of the discipline, economics provides a solid background for many jobs and professions. The study of economics also offers excellent preparation for advanced education in business, law, economics, finances, public policy, international relations, and medicine. Your degree will also help you in developing skills such as numeracy; analysis; verbal and written communication; problem solving; and presentation. You can probably also offer practical skills such as knowledge of computing packages or foreign languages.

**Programmes are taught at:**

##### BACHELOR

European Integration  
Quantitative Economic Analysis  
Macro-financial Management  
International Economics  
Banking and Insurance  
Financial Management  
Macroeconomic Management  
Marketing Management  
Management and IT  
Management and Organization  
Accounting and Audit  
Banking and Insurance Industry  
Marketing  
Management and Organisation  
Entrepreneurship and Business  
Economics  
Accounting and Audit  
Development of Business IT Systems  
Tourism  
Business  
Joint degree: the University of Sarajevo and the Griffith College in Dublin, Ireland

**MASTER**

European Integration  
 Quantitative Economic Analysis and Models  
 Macroeconomic Management  
 Macro-financial Management  
 International Economy  
 Actuaries  
 Actuaries and Insurance  
 Banking and Insurance  
 Financial Management  
 Global Business  
 Marketing  
 Management and IT Technologies  
 Management and Organization  
 Accounting and Audit  
 Modern Business Dealing and Decision-Making  
 Commerce  
 Tourism  
 Public Sector Economics  
 Environmental Economics  
 Public Sector Management  
 Corporate Management  
 Crisis Management  
 Accounting and Taxation  
 Financial Reporting and Audit  
 Advanced Financial Management  
 Advanced Trade Management  
 Business Actuary  
 Strategic IT Management  
 Quality Management  
 Healthcare Quality Management  
 Business Management  
 Adizes Academy of Management  
 Applied Finances – Real Estates, University of Melbourne, Australia  
 Islamic Banking– University of Bolton

**PhD**

Economics  
 Management  
 Business Management

**05.1. EDUCATION, TEACHER TRAINING**

**Study programmes** include topics such as Education | Teacher Training | Primary & Secondary Education

**About the programmes**

The programme follows world standards in education of future teachers, open for cooperation with other international universities and has been included in reforms of education, focusing on higher education reforms.

**Teaching**

Teaching methods include lectures, seminars and personal tutorials, practical sessions, guest speakers. This is all arranged in correlation with lectures/ professors. You will also spend a significant amount of time in doing personal study.

**LANGUAGE**

Lectures are given in Bosnian/Croatian/Serbian. You have to check with the Faculty's International Relations Department whether they give the opportunity to listen lectures in English or any other language.

**ASSESSMENT**

Assessment is by courseware, classroom tests and examinations. Group learning, teamwork, individual work and communication skills are assessed through design group studies and reports as well as presentations. Practical work is also a part of the examinations.

**DEGREE AND QUALIFICATIONS**

The first cycle lasts 4 years of study (total of 240 ECTS) in order to obtain the degree of **Bachelor**.

The second cycle lasts 1 years of study (total of 60 ECTS) and leads to a **Master** degree.

The third cycle lasts 3 years of study (total of 180 ECTS) in order to obtain a **PhD** degree.

**CAREER OPTIONS**

Teaching is a highly noble profession. As this area is so vast having areas of specialisations, different skills and type of training are required for different levels. Areas of specialisation include teaching at nursery schools, middle schools, high schools, faculties, universities, institutes, special schools etc.

**Programmes are taught at:****FACULTY OF PEDAGOGY**

### 06.1. ELECTRICAL ENGINEERING, TELECOMMUNICATIONS

**Study programmes** include topics such as Electrical Engineering | Technology | Telecommunications |

**About the programmes**

These programmes' mission is to provide world class program in teaching and learning within the area of Electrical Engineering, to develop technologies and technologists in the area of electrical engineering possessing high values and morals to spearhead technology knowledge in the field of electrical engineering.

**TEACHING**

Teaching methods include lectures, seminars and personal tutorials, practical sessions, group design, guest speakers. This is all arranged in correlation with lectures/ professors. You will also spend a significant amount of time in doing personal study.

**LANGUAGE**

Lectures are given in Bosnian/Croatian/Serbian. PhD cycle have lessons in English, too. Paper work, mentorship and exams can be organized in English at all levels. You have to check with the Faculty's International Relations Department whether they give the opportunity to listen your preferred lectures in English.

**Assessment**

Assessment is by courseware, classroom tests and examinations. Group learning, teamwork, individual work and communication skills are assessed through design group studies and reports as well as presentations. Practical work is also a part of the examinations.

**DEGREE AND QUALIFICATIONS**

The first cycle lasts 3 years of study (total of 180 ECTS) in order to obtain the degree of Bachelor.

The second cycle lasts 2 years of study (total of 120 ECTS) and leads to a Master degree.

The third cycle lasts 3 years of study (total of 180 ECTS) in order to obtain a PhD degree.

**CAREER OPTIONS**

The Electrical Engineering is one of the largest and fastest growing area of engineering. It covers a wide range of applications which make our life easier and enjoyable such as Television, Radio, computers, telecommunication etc. The need for Electrical Engineers exists not only in the fast growing energy sector-nuclear power plants, hydroelectric power plants as well as thermal power plants, but also in other industries like cement, steel and petrochemicals.

**Programmes are taught at:**

### FACULTY OF ELECTRICAL ENGINEERING

## 06.2. CIVIL ENGINEERING

**Study programmes** include topics such as Civil Engineering

### About the programmes

The programme is committed to providing outstanding learning opportunities, advancements in civil infrastructure development and preservation, and valuable outreach to the engineering community and society. Our purpose is to perform education, research and consulting services in the areas of civil engineering and geodesy.

### TEACHING

Teaching methods include lectures, seminars and personal tutorials, practical sessions, group design, guest speakers. This is all arranged in correlation with lectures/professors. You will also spend a significant amount of time in doing personal study.

### LANGUAGE

Lectures are given in Bosnian/Croatian/Serbian. You have to check with the Faculty's International Relations Department whether they give the opportunity to listen your preferred lectures in English or any other language.

### ASSESSMENT

Assessment is by courseware, classroom tests and examinations. Group learning, teamwork, individual work and communication skills are assessed through design group studies and reports as well as presentations. Practical work is also a part of the examinations.

### DEGREE AND QUALIFICATIONS

The first cycle lasts 3 years of study (total of 180 ECTS) in order to obtain the degree of Bachelor.

The second cycle lasts 2 years of study (total of 120 ECTS) and leads to a Master degree.

The third cycle lasts 3 years of study (total of 180 ECTS) in order to obtain the degree of PhD.

### CAREER OPTIONS

Civil Engineering involves planning, designing and executing structural works. The profession deals with a wide variety of engineering tasks including designing, supervision and construction activities of public works like roads, bridges, tunnels, buildings, airports, dams, water works, sewage systems, ports etc. On most projects, civil engineers work in teams or in coordination with many other engineers. They can find work as a supervisor of a construction site or a managerial position or in design, research as well as teaching in government services or private concerns. They can also work as independent consultants.

**Programmes are taught at:**

### FACULTY OF CIVIL ENGINEERING

### Contact:

Address: Patriotske lige 30,  
71000 Sarajevo  
Contact person: Prof. Dr. Mustafa

[hrasnica@bih.net.ba](mailto:hrasnica@bih.net.ba)  
Web: [www.gf.unsa.ba](http://www.gf.unsa.ba)

### Offered programmes:

#### BACHELOR

Constructions  
Geodesy

#### MASTER

Civil Engineering  
Roads  
Hydrotechnics  
Geodesy

#### PhD

Constructions  
Geodesy

All information about programmes can be found at:

[www.gf.unsa.ba](http://www.gf.unsa.ba) > Departments

### 06.3. MECHANICAL ENGINEERING

**Study programmes** include topics such as Mechanical Engineering | Informatics

#### About the programmes

The programme creates today's experts which contribute to the country's industry. Our goal is to become recognizable partner in economy as a institution that follows and participates in research and development processes on international level.

#### TEACHING

Teaching methods include lectures, seminars and personal tutorials, practical sessions, guest speakers. This is all arranged in correlation with lectures/ professors. You will also spend a significant amount of time in doing personal study.

#### LANGUAGE

Lectures are given in Bosnian/Croatian/Serbian. You have to check with the Faculty's International Relations Department whether they give the opportunity to listen lectures in English or any other language. Paper works and mentorships can be provided in English.

#### ASSESSMENT

Assessment is by courseware, classroom tests and examinations. Group learning, teamwork, individual work and communication skills are assessed through design group studies and reports as well as presentations. Practical work is also a part of the examinations.

#### DEGREE AND QUALIFICATIONS

The first cycle lasts 3 years of study (total of 180 ECTS) in order to obtain the degree of Bachelor. The second cycle lasts 2 years of study (total of 120 ECTS) and leads to a Master degree.

The third cycle lasts 3 years of study (total of 180 ECTS) in order to obtain the degree of PhD.

#### CAREER OPTIONS

Mechanical engineering is concerned with all types of machinery in industries and all aspects of their mechanism and functioning; the design, development, construction, production, installation, operation and maintenance.

The specialisations include in areas like thermal engineering, design, and production engineering etc. Mechanical engineers work mainly in manufacturing firms. They can find work in administrative and managerial positions in government departments or public and private sector industries or do research as well as teaching in research and teaching institutes. They could also opt for technical sales / marketing or work as independent consultants.

#### Programmes are taught at:

#### FACULTY OF MECHANICAL ENGINEERING

#### Contact:

Address: Vilsonovo šetaliste 9,  
71000 Sarajevo  
Contact person: Prof. Dr. Majda

#### Offered programmes:

##### BACHELOR

Energetics  
Air-Conditioning, Heating and Cooling  
Process Engineering  
Environmental Engineering  
Industrial Engineering and Management  
Manufacturing Technology, Automation and Robotics  
Mechatronics in Machine Engineering  
Mechanical Construction  
Engines and Vehicles  
Defensive Technologies  
Wood Technologies

##### MASTER

Energetics  
Air-Conditioning, Heating and Cooling  
Process Engineering  
Environmental Engineering  
Industrial Engineering and Management  
Manufacturing Technology, Automation and Robotics  
Mechatronics in Machine Engineering  
Mechanical Construction  
Engines and Vehicles  
Defensive Technologies  
Wood Technologies

##### PhD

Renewable Energy Resources and Environmental Technologies

All information about programmes can be found at:

[www.mef.unsa.ba](http://www.mef.unsa.ba) > Departments

## 07.1. GEOGRAPHY

**Study programmes** include topics such as Geography | Urban Planning | Tourism

### About the programmes

The programme will offer range of studies focusing on the study of human societies – how they operate, develop, and the challenges they face (population change, cultural and religious practices, or globalization) and about understanding the earth's physical processes – from climates and weather systems, to earthquakes and rock formations, right down to what's happening on the ocean floor.

### TEACHING

Teaching methods include lectures, seminars and personal tutorials, practical sessions, group design, guest speakers. This is all arranged in correlation with lectures/ professors. You will also spend a significant amount of time in doing personal study.

### LANGUAGE

Lectures are given in Bosnian/Croatian/Serbian. You have to check with the Faculty's International Relations Department whether they give the opportunity to listen lectures in English or any other language.

### ASSESSMENT

Assessment is by courseware, classroom tests and examinations. Group learning, teamwork, individual work and communication skills are assessed through group studies and reports as well as presentations. Practical work is also a part of the examinations.

### DEGREE AND QUALIFICATIONS

The first cycle lasts 4 years of study (total of 240 ECTS) in order to obtain the degree of Bachelor.

The second cycle lasts 1 years of study (total of 60 ECTS) and leads to a Master degree.

The third cycle lasts 3 years of study (total of 180 ECTS) in order to obtain the degree of PhD.

### CAREER OPTIONS

Geography careers offer opportunities to develop solutions to some of the most pressing problems for modern society: climate change, natural disasters, overpopulation. Geography graduates may provide research and advice to help governments, or as part of an independent research group, think tank or university faculty. Other types of geography careers include cartography (producing maps), transportation management, town planning. Geography degrees also provide many transferable skills – including data analysis, report writing and computer modelling – which could support careers in a wide range of sectors.

**Programmes are taught at:**

### FACULTY OF NATURAL SCIENCES AND MATHEMATICS

### Contact:

## 07.2. BIOLOGY

**Study programmes** include topics such as Biology | Biochemistry | Ecology | Genetics

### About the programmes

The programme consisting of study and characterization of living organisms and the investigation of the science behind living things. The most biology courses will have core modules focusing on subjects such as cell theory and molecular biology, evolution, physiology and adaptation, gene theory, and homeostasis after which you'll be able to choose an area in which to specialize such as cell and molecular biology, ecology and evolution, environmental biology, genetics, microbiology, natural science, physiology, and many others.

### TEACHING

Teaching methods include lectures, seminars and personal tutorials, practical sessions, guest speakers. This is all arranged in correlation with lectures/ professors. You will also spend a significant amount of time in doing personal study.

### LANGUAGE

Lectures are given in Bosnian/Croatian/Serbian. You have to check with the Faculty's International Relations Department whether they give the opportunity to listen lectures in English or any other language.

### ASSESSMENT

Assessment is by courseware, classroom tests and examinations. Group learning, teamwork, individual work and communication skills are assessed through design group studies and reports as well as presentations. Practical work is also a part of the examinations.

### DEGREE AND QUALIFICATIONS

The first cycle lasts 4 years of study (total of 240 ECTS) in order to obtain the degree of Bachelor.

The second cycle lasts 1 years of study (total of 60 ECTS) and leads to a Master degree.

The third cycle lasts 3 years of study (total of 180 ECTS) in order to obtain the degree of PhD.

### CAREER OPTIONS

Your options as a graduate with a biology degree will largely depend on the level of qualification you attain. While the basic skills developed during an undergraduate biology degree are transferrable to many industries, many of the most sought-after biology careers do require higher levels of academic study.

### Programmes are taught at:

### FACULTY OF NATURAL SCIENCES AND MATHEMATICS

[www.pmf.unsa.ba](http://www.pmf.unsa.ba) > *Biologija*

### 07.3. PHYSICS

**Study programmes** include topics such as Physics

#### About the programmes

Physics degrees offer students the chance to understand the world around them in all its enormity and complexity. Broad topics of study could include electricity and magnetism, relativity, thermodynamics, quantum mechanics, fluid dynamics and geophysics.

#### TEACHING

Teaching methods include lectures, seminars and personal tutorials, practical sessions, guest speakers. This is all arranged in correlation with lectures/ professors. You will also spend a significant amount of time in doing personal study.

#### LANGUAGE

Lectures are given in Bosnian/Croatian/Serbian. You have to check with the Faculty's International Relations Department whether they give the opportunity to listen lectures in English or any other language.

#### ASSESSMENT

Assessment is by courseware, classroom tests and examinations. Group learning, teamwork, individual work and communication skills are assessed through group studies and reports as well as presentations. Practical work is also a part of the examinations.

#### DEGREE AND QUALIFICATIONS

The first cycle lasts 4 years of study (total of 240 ECTS) in order to obtain the degree of Bachelor.

The second cycle lasts 1 years of study (total of 60 ECTS) and leads to a Master degree.

The third cycle lasts 3 years of study (total of 180 ECTS) in order to obtain the degree of PhD.

#### CAREER OPTIONS

Career options for physics graduates are actually very diverse, including both research-based roles and more hands-on positions. A large number of physics students also pursue graduate education, and this path is likely to lead to a career in research. This could mean staying within the higher education sector, working for a public agency or joining a private research lab.

**Programmes are taught at:**

#### FACULTY OF NATURAL SCIENCES AND MATHEMATICS

#### Contact:

**Offered programmes:**

#### BACHELOR

Physics – teaching branch  
Physics – general branch

#### MASTER

Physics – teaching branch (offered 1 and 2 years)  
Physics – general branch

#### PhD

Physics Sciences

All information about programmes can be found at:  
[www.pmf.unsa.ba](http://www.pmf.unsa.ba) > Fizika

## 07.4. CHEMISTRY

**Study programmes** include topics such as Chemistry

### About the programmes

There is much overlap between chemistry and other scientific subjects. Chemical processes and the composition of elements play a large part in the study of living organisms and matter's relationship to forces. At undergraduate level, this will often take the form of elective modules, though specialized courses are also an option. Graduate study will certainly involve specialization.

### TEACHING

Teaching methods include lectures, seminars and personal tutorials, practical sessions, guest speakers. This is all arranged in correlation with lectures/ professors. You will also spend a significant amount of time in doing personal study.

### LANGUAGE

Lectures are given in Bosnian/Croatian/Serbian. You have to check with the Faculty's International Relations Department whether they give the opportunity to listen lectures in English or any other language.

### ASSESSMENT

Assessment is by courseware, classroom tests and examinations. Group learning, teamwork, individual work and communication skills are assessed through design group studies and reports as well as presentations. Practical work is also a part of the examinations.

### DEGREE AND QUALIFICATIONS

The first cycle lasts 4 years of study (total of 240 ECTS) in order to obtain the degree of Bachelor.

The second cycle lasts 1 years of study (total of 60 ECTS) and leads to a Master degree.

The third cycle lasts 3 years of study (total of 180 ECTS) in order to obtain the degree of PhD.

### CAREER OPTIONS

Research positions can be undertaken in a range of different environments: universities, public and private research institutions, and at profit-orientate private companies. Research is not the only path open to chemists. Specialist teaching is always options, as are other careers for which specialist knowledge will be an asset: forensics for example, or health and safety related professions.

### 07.5. MATHEMATICS

**Study programmes** include topics such as Mathematics | Computer Sciences

#### About the programmes

You can expect to study a range of introductory courses in your first year, covering key mathematics topics such as abstract algebra, calculus, complex numbers, differential equations, geometry, number theory, probability and statistics. You'll then move on to more advanced study, and will need to choose from a range of elective courses. Computer science degrees deal with the theoretical foundations of information and computation, taking a scientific and practical approach to computation and its applications.

#### TEACHING

Teaching methods include lectures, seminars and personal tutorials, practical sessions, guest speakers. This is all arranged in correlation with lectures/ professors. You will also spend a significant amount of time in doing personal study.

#### LANGUAGE

Lectures are given in Bosnian/Croatian/Serbian. You have to check with the Faculty's International Relations Department whether they give the opportunity to listen lectures in English or any other language.

#### ASSESSMENT

Assessment is by courseware, classroom tests and examinations. Group learning, teamwork, individual work and communication skills are assessed through group studies and reports as well as presentations. Practical work is also a part of the examinations.

#### DEGREE AND QUALIFICATIONS

The first cycle lasts 3 years of study (total of 180 ECTS) in order to obtain the degree of Bachelor.

The second cycle lasts 2 years of study (total of 120 ECTS) and leads to a Master degree.

The third cycle lasts 3 years of study (total of 180 ECTS) in order to obtain the degree of PhD.

#### CAREER OPTIONS

Career options for physics graduates are actually very diverse, including both research-based roles and more hands-on positions. A large number of physics students also pursue graduate education, and this path is likely to lead to a career in research. This could mean staying within the higher education sector, working for a public agency or joining a private research lab.

## 08.1. PHILOSOPHY

**Study programmes** include topics such as Philosophy

### About the programmes

Philosophy's nature as a study of humanity means that it is less prone to going out of date than some subjects, so to study philosophy is to immerse yourself in an absolutely huge continuum of ideas and debates both past and present.

### TEACHING

Teaching methods include lectures, seminars and personal tutorials, practical sessions, guest speakers. This is all arranged in correlation with lectures/ professors. You will also spend a significant amount of time in doing personal study.

### LANGUAGE

Lectures are mainly given in Bosnian/Croatian/Serbian. You have to check with the Faculty's International Relations Department whether they give the opportunity to listen lectures in English or any other language.

### ASSESSMENT

Assessment is by coursework, classroom tests and examinations. Group learning, teamwork, individual work and communication skills are assessed through design group studies and reports as well as presentations. Practical work is also a part of the examinations.

### DEGREE AND QUALIFICATIONS

The first cycle lasts 3 years of study (total of 180 ECTS) in order to obtain the degree of Bachelor.

The second cycle lasts 2 years of study (total of 120 ECTS) and leads to a Master degree.

The third cycle lasts 3 years of study (total of 180 ECTS) in order to obtain the degree of PhD.

### CAREER OPTIONS

Philosophy degrees arm you with an arsenal of skills which will serve you well in the world of work. Some of the graduates could go through the levels and become professional academics. More commonly, you'll find graduates working as journalists, lawyers, teachers, civil servants, diplomats, in the media or for NGOs.

### Programmes are taught at:

### FACULTY OF PHILOSOPHY

[www.ff.unsa.ba](http://www.ff.unsa.ba) > Departments

## 08.2. PSYCHOLOGY

**Study programmes** include topics such as Psychology

### About the programmes

Psychology degrees are all about the study of people – their behavior, thoughts, actions, interactions and reactions.

### TEACHING

Teaching methods include lectures, seminars and personal tutorials, practical sessions, guest speakers. This is all arranged in correlation with lectures/ professors. You will also spend a significant amount of time in doing personal study.

### LANGUAGE

Lectures are given in Bosnian/Croatian/Serbian. You have to check with the Faculty's International Relations Department whether they give the opportunity to listen lectures in English or any other language.

### ASSESSMENT

Assessment is by courseware, classroom tests and examinations. Group learning, teamwork, individual work and communication skills are assessed through design group studies and reports as well as presentations. Practical work is also a part of the examinations.

### DEGREE AND QUALIFICATIONS

The first cycle lasts 3 years of study (total of 180 ECTS) in order to obtain the degree of Bachelor.

The second cycle lasts 2 years of study (total of 120 ECTS) and leads to a Master degree.

The third cycle lasts 3 years of study (total of 180 ECTS) in order to obtain the degree of PhD.

### CAREER OPTIONS

Most psychology graduates don't actually become professional psychologists, though many do work in related roles within healthcare, mental health support or in other people-focused roles.

### Programmes are taught at:

## 08.5. LANGUAGES, LITERATURE

**Study programmes** include topics such as Bosnian, Croatian, Serbian | English | Arabic | Persian | Turkish | Russian | French | Italian | German | Latin | Teacher training | Translator training | Proofreading | Literature | Library

### About the programmes

The study of linguistics exists in order to help us understand the abstract noises and shapes which we use to communicate with each other, the differences between them and what they mean, the rules which govern them, and how we understand them. This considers studying literary texts, films, history, politics and media, and usually also means spending time studying or working in a country where your language of choice is spoken. Different modern language degrees will have a different emphasis – some perhaps more focused on the study of literary texts, others more on contemporary contexts or on vocational training.

### TEACHING

Teaching methods include lectures, seminars and personal tutorials, practical sessions, guest speakers. This is all arranged in correlation with lectures/ professors. You will also spend a significant amount of time in doing personal study.

### LANGUAGE

Lectures are given in Bosnian/Croatian/Serbian. For the language departments the lectures are given in language that is an object of study. For other subjects, you have to check with the Faculty's International Relations Department whether they give the opportunity to listen lectures in English or any other language.

### ASSESSMENT

Assessment is by courseware, classroom tests and examinations. Group learning, teamwork, individual work and communication skills are assessed through group studies and reports as well as presentations.

### DEGREE AND QUALIFICATIONS

The first cycle lasts 3 years of study (total of 180 ECTS) in order to obtain the degree of Bachelor.

The second cycle lasts 2 years of study (total of 120 ECTS) and leads to a Master degree.

The third cycle lasts 3 years of study (total of 180 ECTS) in order to obtain the degree of PhD.

### CAREER OPPORTUNITIES

Interpreters, travel journalists, and teachers are a few of the professions modern language and literature degree graduates undertake. But in fact practically every employment sector, from commerce to social services, requires people who are proficient in different languages. Opportunities for archaeologists exist within museums, heritage agencies and local government but the skills you'll get from the degree open up doors to many different careers.

**Programmes are taught at:**

### FACULTY OF PHILOSOPHY

## 08.4. HISTORY, ARCHAEOLOGY

**Study programmes** include topics such as History | History of Art | Archaeology | Modern History | Ottoman period | Middle Ages | Antiquity

### About the programmes

History programme provides insights into present-day situations and future possibilities. The possible scope of regions, cultures and historical periods covered by history degrees is vast. Each history degree course is likely to offer a different set of history specializations. Archaeology offers studies through the recovery and analysis of the material culture and environmental data that they have left behind, including artifacts, architecture and cultural landscapes (the archaeological record).

### TEACHING

Teaching methods include lectures, seminars and personal tutorials, practical sessions, guest speakers. This is all arranged in correlation with lectures/professors. You will also spend a significant amount of time in doing personal study.

### LANGUAGE

Lectures are given in Bosnian/Croatian/Serbian. You have to check with the Faculty's International Relations Department whether they give the opportunity to listen lectures in English or any other language.

### ASSESSMENT

Assessment is by courseware, classroom tests and examinations. Group learning, teamwork, individual work and communication skills are assessed through design group studies and reports as well as presentations. Practical work is also a part of the examinations.

### DEGREE AND QUALIFICATIONS

The first cycle lasts 3 years of study (total of 180 ECTS) in order to obtain the degree of Bachelor.

The second cycle lasts 2 years of study (total of 120 ECTS) and leads to a Master degree.

The third cycle lasts 3 years of study (total of 180 ECTS) in order to obtain the degree of PhD.

### CAREER OPTIONS

Those who are keen to continue making use of their subject-specialist knowledge may go into educational, research or heritage roles – for example in museums, public archives or galleries. Strong analytical and communications skills could lead to roles in marketing, advertising, public relations or journalism.

**Programmes are taught at:**

#### BACHELOR

History  
History of Art  
Archaeology  
(in combination with other subjects at the Faculty of Philosophy - dual subjects)

#### MASTER

History - teacher's course  
Antiquity  
Middle Ages  
Ottoman Period  
Modern History  
History of Art  
Archaeology  
(in combination with other subjects at the Faculty of Philosophy - dual subjects)

#### PhD

History of Bosnia and Herzegovina

All information about programmes can be found at:

[www.ff.unsa.ba](http://www.ff.unsa.ba) > Departments

### 08.3. SOCIOLOGY

**Study programmes** include topics such as Sociology

#### About the programmes

Studying sociology could mean conducting empirical research (based on observation), using statistical analysis to identify causal relationships and trends, and seeing how these trends relate to various social theories.

#### TEACHING

Teaching methods include lectures, seminars and personal tutorials, practical sessions, guest speakers. This is all arranged in correlation with lectures/ professors. You will also spend a significant amount of time in doing personal study.

#### LANGUAGE

Lectures are given in Bosnian/Croatian/Serbian. You have to check with the Faculty's International Relations Department whether they give the opportunity to listen lectures in English or any other language.

#### ASSESSMENT

Assessment is by courseware, classroom tests and examinations. Group learning, teamwork, individual work and communication skills are assessed through design group studies and reports as well as presentations. Practical work is also a part of the examinations.

#### DEGREE AND QUALIFICATIONS

The first cycle lasts 3 years of study (total of 180 ECTS) in order to obtain the degree of Bachelor.

The second cycle lasts 2 years of study (total of 120 ECTS) and leads to a Master degree.

The third cycle lasts 3 years of study (total of 180 ECTS) in order to obtain the degree of PhD.

#### CAREER OPTIONS

Degree in sociology does provide a broad set of transferrable skills valued by employers across many different employment sectors. Popular jobs for sociology majors include social work jobs, counselling jobs, community development jobs and others.

**Programmes are taught at:**

#### FACULTY OF PHILOSOPHY

## 08.6. ISLAMIC STUDIES

**Study programmes** include topics such as Islamic Religion | Theology |

### About the programmes

Theology and Religious Studies are ever relevant in a world where religious belief is a driving force behind world events. Anyone operating internationally requires some understanding of the importance of religion and its cultural contexts.

### TEACHING

Teaching methods include lectures, seminars and personal tutorials, practical sessions, guest speakers. This is all arranged in correlation with lectures/professors. You will also spend a significant amount of time in doing personal study.

### LANGUAGE

Lectures are given in Bosnian/Croatian/Serbian while some can be performed in English or Arabic. You have to check with the Faculty's International Relations Department whether they give the opportunity to listen lectures in foreign language.

### ASSESSMENT

Assessment is by courseware, classroom tests and examinations. Group learning, teamwork, individual work and communication skills are assessed through design group studies and reports as well as presentations. Practical work is also a part of the examinations. Based on the experiences of exchange students, there were no problems with arranging exams in different languages.

### DEGREE AND QUALIFICATIONS

The first cycle lasts 4 years of study (total of 240 ECTS) in order to obtain the degree of Bachelor.

The second cycle lasts 1 years of study (total of 60 ECTS) and leads to a Master degree.

### CAREER OPTIONS

As a religious higher education institution, it is presumed that students do stay in religious activities, either in religious institutions, or they can choose further education for teaching career.

**Programmes are taught at:**

## 08.7. CATHOLIC STUDIES

**Study programmes** include topics such as Catholic Religion | Theology |

### About the programmes

The Theology and Religious studies course involves the study of sacred texts (including biblical studies), philosophy, sociology, history, language, literary criticism, and the construction of ideas. Given this breadth, students can create for themselves a varied programme of study.

### TEACHING

Teaching methods include lectures, seminars and personal tutorials, practical sessions, guest speakers. This is all arranged in correlation with lectures/professors. You will also spend a significant amount of time in doing personal study.

### LANGUAGE

Lectures are given in Bosnian/Croatian/Serbian while some can be performed in English or Arabic. You have to check with the Faculty's International Relations Department whether they give the opportunity to listen lectures in foreign language.

### ASSESSMENT

Assessment is by courseware, classroom tests and examinations. Group learning, teamwork, individual work and communication skills are assessed through design group studies and reports as well as presentations. Practical work is also a part of the examinations. Based on the experiences of exchange students, there were no problems with arranging exams in different languages.

### DEGREE AND QUALIFICATIONS

The first cycle lasts 5 years of study (total of 300 ECTS) in order to obtain the degree of Bachelor.

### CAREER OPTIONS

As a religious higher education institution, it is presumed that students do stay in religious activities, either in religious institutions, or they can choose further education for teaching career.

**Programmes are taught at:**

## 09.1. LAW

**Study programmes** include topics such as Law | International Law | EU Law |

### About the programmes

The Faculty of Law offers high quality programs for 1st and 2nd cycles of studies. Rich academic programs are supplemented by its many legal clinics and public interest programs. Housed in beautiful, historic building, the Faculty also features modern facilities.

### TEACHING

Law programmes start with compulsory core courses, and more opportunities to choose law topics tailored to a particular career path later on. Teaching is through a combination of lectures, seminars, group work, presentations, class debates and practical law training in a courtroom setting to help students master important legal skills such as research and analysis, public speaking and argument formation.

### LANGUAGE

Lectures are given in Bosnian/Croatian/Serbian. Mentorship is possible in English. You have to check with the Faculty's International Relations Department whether they give the opportunity to listen your preferred lectures and take exams in English.

### ASSESSMENT

Assessment is by courseware, classroom tests and examinations. Group learning, teamwork, individual work and communication skills are assessed through design group studies and reports as well as presentations. Practical work is also a part of the examinations.

### DEGREE AND QUALIFICATIONS

The first cycle lasts 4 years of study (total of 240 ECTS) in order to obtain the degree of Bachelor.

The second cycle lasts 1 years of study (total of 60 ECTS) and leads to a Master degree.

The third cycle lasts 3 years of study (total of 180 ECTS) and leads to a PhD degree.

### CAREER OPTIONS

Students majoring in legal studies focus their learning on law and legal institutions. The major can lay the foundation for a career in business, government and law enforcement, as well as master's or doctorate degree programs in Law or related areas. Studying Law develops many skills which will be equally valuable outside the legal profession, in particular the following: communication, both written and verbal, analysing and problem solving, using information from different sources, time management, researching, presentation, negotiation, attention to details, logical reasoning. Job opportunities: paralegal, probation officer, social worker, lawyers.

**Programmes are taught at:**

## 09.2. CRIMINOLOGY

**Study programmes** include topics such as Criminology | Criminalistics | Security

### About the programmes

You'll learn about the theory of criminal law, and examine issues such as crime and gender, restorative justice, criminal justice, global crime problems, human rights, and socio-legal methods and theory. You'll also study more specific aspects of criminal law such as homicide, mentally disordered offenders, the death penalty in law, legal responses to terrorism, sentencing, and victimization and victim policy.

### TEACHING

Teaching methods include lectures, seminars and personal tutorials, practical sessions, guest speakers. This is all arranged in correlation with lectures/professors. You will also spend a significant amount of time in doing personal study.

### LANGUAGE

Lectures are given in Bosnian/Croatian/Serbian. You have to check with the Faculty's International Relations Department whether they give the opportunity to listen lectures in foreign language.

### ASSESSMENT

Assessment is by courseware, classroom tests and examinations. Group learning, teamwork, individual work and communication skills are assessed through design group studies and reports as well as presentations. Practical work is also a part of the examinations.

### DEGREE AND QUALIFICATIONS

The first cycle lasts 3-4 years of study (total of 180-240 ECTS) in order to obtain the degree of **Bachelor**.

The second cycle lasts 1-2 years of study (total of 60-120 ECTS) and leads to a **Master** degree.

The third cycle lasts 3 years of study (total of 180 ECTS) in order to obtain a **PhD** degree.

### CAREER OPTIONS

Employers value experience, also there is a range of paid and voluntary work opportunities, including work with offenders, criminal justice agencies and victims of crime. The Social work and community education departments also offer relevant opportunities. Jobs directly related to your degree: community development worker, police officer, probation officer, social worker, prison officer, solicitor. You can probably additionally offer practical skills such as knowledge of computing packages or foreign languages.

### Programmes are taught at:

## 10.1. MEDICINE

**Study programmes** include topics such as Medicine

### About the programmes

While there are many possible medical specializations, all medical degrees will start out with a more general grounding in the subject. This should give you an in-depth understanding of human biology, the principles of disease processes, and an introduction to different medical solutions and clinical procedures.

### TEACHING

Teaching methods include lectures, seminars and personal tutorials, practical session, guest speakers. Practical sessions are organized in laboratories and clinics. This is all arranged in correlation with lectures/ professors. You will also spend a significant amount of time in doing personal study.

### LANGUAGE

Lectures are given in Bosnian/ Croatian/Serbian. You have to check with the Faculty's International Relations Department whether they give the opportunity to listen lectures in foreign language.

### ASSESSMENT

Assessment is by courseware, classroom tests and examinations. Group learning, teamwork, individual work and communication skills are assessed through design group studies and reports as well as presentations. Practical work is also a part of the examinations.

## DEGREE AND QUALIFICATIONS

The first and second cycles are integrated with study program and last 5 years (total of 300 ECTS) with 2 years of specialisation and lead to a degree Doctor of Medicine (MD). Following the graduation from the Faculty, candidates can enroll studies at postgraduate level.

## CAREER OPTIONS

Medicine is one of the most sort out and rewarding career for those interested in science and dealing with ill people. Over the years, the area of medical studies have undergone various stages of development, it has become so vast that specialisations within are increasing day by day. There is great scope for medicine as a professional career. The major Specialisations include General Medicine, General Surgery, Paediatrics, Obstetrics & Gynaecology, Dermatology, Ophthalmology, Orthopedics, ENT (Ear, Nose and Throat), Psychiatry, Anesthesiology etc.

**Programmes are taught at:**

**Offered programmes:**

### Integrated BACHELOR & MASTER studies

General Medicine

All information about programmes can be found at:

[www.mf.unsa.ba/en](http://www.mf.unsa.ba/en)

## 10.2. PHARMACY

**Study programmes** include topics such as Pharmacy

### About the programmes

Pharmacy students will typically take modules focusing on chemistry, human biology and physiology, pharmaceuticals (how medicines are made) and pharmacology (how drugs interact with the body). Most pharmacy degrees combine academic research with more vocational training, such as learning about legal and ethical issues, and how to interact with patients.

### TEACHING

Teaching methods include lectures, seminars and personal tutorials, practical sessions, guest speakers. This is all arranged in correlation with lectures/professors. You will also spend a significant amount of time in doing personal study.

### LANGUAGE

Teaching methods include lectures, seminars and personal tutorials, practical session, guest speakers. Practical sessions are organized in laboratories. This is all arranged in correlation with lectures/professors. You will also spend a significant amount of time in doing personal study.

### ASSESSMENT

Assessment is by courseware, classroom tests and examinations. Group learning, teamwork, individual work and communication skills are assessed through design group studies and reports as well as presentations. Practical work is also a part of the examinations.

### DEGREE AND QUALIFICATIONS

The first and second cycles are integrated and last 5 years of study (total of 300 ECTS) in order to obtain the degree of **Master**.

### CAREER OPTIONS

The majority of pharmacists work in community practice (commonly known as a chemist's shop or community pharmacy). Many pharmacists also work full time or part time as managers or pharmacists-in-charge.

**Programmes are taught at:**

### FACULTY OF PHARMACY

### 11.1. JOURNALISM, PUBLIC RELATIONS, COMMUNICATION

**Study programmes** include topics such as Journalism | Public Relations | Mass-media | Communicology

#### About the programmes

Journalism program offers a very wide range of journalism skills, from how to research and write a basic news story, to how to lay-out a page, work fast online and handle social media. Media and communication degrees face the challenge of keeping pace with the latest trends and debates, preparing students for work in media-related industries, and also training them as critical commentators on the ways in which media reflects, represents and influences the world.

#### Teaching

Teaching methods include lectures, seminars and personal tutorials, practical sessions, guest speakers. This is all arranged in correlation with lectures/professors. You will also spend a significant amount of time in doing personal study.

#### LANGUAGE

Lectures are given in Bosnian/Croatian/Serbian. You have to check with the Faculty's International Relations Department whether they give the opportunity to listen lectures in English or any other language.

#### ASSESSMENT

Assessment is by courseware, classroom tests and examinations. Group learning, teamwork, individual work and communication skills are assessed through design group studies and reports as well as presentations.

#### DEGREE AND QUALIFICATIONS

The first cycle lasts 3 years of study (total of 180 ECTS) in order to obtain the degree of **Bachelor**.

The second cycle lasts 1-2 years of study (total of 60-120 ECTS) and leads to a **Master** degree.

The third cycle lasts 3 years of study (total of 180 ECTS) in order to obtain a **PhD** degree.

#### CAREER OPTIONS

Thanks to the fast pace of change in communications technologies, careers in journalism are more diverse than ever before. New technologies are also opening up many new and evolving roles too. As a media studies graduate, you should have strong analytical skills, excellent written and spoken communication, and a good instinct for what makes a captivating story, image or headline – all of which should help you make a good impression on potential employers.

## 12.1. SPORTS

**Study programmes** include topics such as Sport | Management in Sport

### About the programmes

This programme follows the path of many European universities for sport and provides students to receive and shape their knowledge through the lectures coordinated with Bologna Education process.

Also, it offers classrooms, departments, halls, laboratories, library, sport and restaurant facilities which meet requirements for sport activities for students and members of staff.

### Teaching

Teaching methods include lectures, seminars and personal tutorials, practical sessions, group design, guest speakers. Practical sessions are also organized through sport competitions, participation in many sport events, etc. This is all arranged in correlation with lectures/ professors. You will also spend a significant amount of time in doing personal study.

### LANGUAGE

Lectures are given in Bosnian/Croatian/Serbian. You have to check with the Faculty's International Relations Department whether they give the opportunity to listen lectures in English or any other language.

### ASSESSMENT

Assessment is by courseware, classroom tests and examinations. Group learning, teamwork, individual work and communication skills are assessed through design group studies, sport activities and reports as well as presentations. Practical work is also a part of the examinations.

### DEGREE AND QUALIFICATIONS

The first cycle lasts 3-4 years of study (total of 180-240 ECTS) in order to obtain the degree of **Bachelor**.

The second cycle lasts 1-2 years of study (total of 60-120 ECTS) and leads to a **Master** degree.

The third cycle lasts 3 years of study (total of 180 ECTS) to obtain a **PhD** degree.

### CAREER OPTIONS

Many sport scientists will aim to move into coaching or instructing, helping athletes to improve their performance. This can range from being a sports teacher or coach of an amateur team, to being a personal trainer in a gym, to working with professional or semi-professional athletes at the very top of their game. Being mobile in this last regard can be helpful, as there are plenty of countries and athletes vying for success in a wide range of different tournaments.

# RESEARCH OPPORTUNITIES

## ABOUT

Scientific research in Bosnia and Herzegovina can be said to be in an alarming situation; the country lags behind in this area and this reflects more and more on its weakened competitiveness and low productivity of its economy, as well as its position on the regional and the global market. It is particularly noteworthy that in the given circumstances, interestingly, the areas of competence of the University of Sarajevo noted by relevant international scientific databases grew in previous period. According to the Elsevier indicators, the increase is mainly due to new research in clinical disciplines, whereas mathematics and physics stand out in terms of the level of competence. The University of Sarajevo will always try to contribute to the research mission, especially focusing on intellectual, technological, economic and social developments. Our University covers a broad range of research activities, including basic research, applied research and development research. The top-class science and research performed at Faculties, Academies, Centres and Institutes of learning thrives on intensive cooperation between scientists, academics, research organisations and institutes, both at home and abroad. In addition to higher education institutions, academic researchers do have a possibility to do their research in the collaborations with our Centres and Institutes.

## HUMAN RIGHTS CENTER

It was founded with the goal of providing the University with a possibility to get organized and be able for the confident and expert implementing of international human rights. Its mission is to contribute to the implementation of international human rights through information dissemination processes and providing necessary documentation, lectures, expert advice, research and reporting and publishing relevant materials. The Center is an interdisciplinary body and is co-operating with other similar institutions, non-governmental organisations and national and international bodies dealing with human rights issues. Its activities include national as well as international domain.

#### **NATIONAL MUSEUM OF BOSNIA AND HERZEGOVINA**

The National Museum of Bosnia and Herzegovina (Zemaljski Muzej Bosne i Hercegovine) is located in central Sarajevo. It was established in 1888. The museum is a cultural and scientific institution covering a wide range of areas including archaeology, art history, ethnology, geography, history and natural history. The Sarajevo Haggadah, an illuminated manuscript and the oldest Sephardic Jewish document in the world issued in Barcelona around 1350, containing the traditional Jewish Haggadah, is held at the museum.

## STUDENTS' AND STAFF'S MOBILITY

# EXPERIENCE

---

If you consider being in the mobility process at the University of Sarajevo (an exchange student or member of academic and non-academic staff), you may read the former scholars' experience which can be helpful in your decision.

>>>

**Ilona Jerič**  
**University of Ljubljana**  
**SLOVENIA**

My Basileus exchange in Sarajevo was very fruitful for understanding different social environments, meeting new people and last but not least my diploma thesis research. Living in a city and country that has such a strong presence of historical political components in everyday life requires recontextualization of previously obtained knowledge about environment. But at the same point this circumstance elicits different opinions in communication, which motivated intensiveness of my observations, participations and knowledge-absorption process. Also my staying at the department for Comparative Literature and at Bosnian-Herzegovian Literature Department was valuable for insight in Bosnian-Herzegovian literature thesaurus and the research questions arising out of it. Out of the study coordinates - Sarajevo was really nice and inspirational experience; good music, good food, beautiful surroundings and charismatic people.

**Franka Gulin**  
**University of Zagreb**  
**CROATIA**

This scholarship was the one of the best things that happened in my life. I met fabulous people, made friendships, ate fantastic food and worked together with some excellent professors and colleagues. Now I am at the end of this life adventure and I am still trying to find a way to stay a little bit more. This was a very very good year for me. Sarajevo, I got you under my skin!

Alma Budimlić  
University of Ljubljana  
SLOVENIA

I was very warmly welcomed at the Faculty of Public Administration in Sarajevo: from staff, who showed me the Faculty and was always there for anything I needed, as well as students, who showed me around and introduced me with the city, they helped me with my studying too, explained the words I sometimes did not understand, during the classes. I can only say I wish it lasted longer and if someone considers applying, don't think twice!

**Pavel Pospech**  
**Masaryk University, Brno**  
**CZECH REPUBLIC**

My encounter with Sarajevo was rather random one, as it happens to be with many important encounters in general. I was looking for a place where I could work independently on my PhD thesis and related research. Within the Erasmus Mundus programme, Sarajevo appeared to be the most interesting city, so I picked Sarajevo. Now, 6 months later and about to leave back home, I can see it was a good choice. My experience with academic life at the university is somewhat limited, since I didn't participate in lectures and seminars. My stay here was research-oriented, which meant less contact with the academia and more independent work. Such an assignment implies a certain level of loneliness, which I also expected when coming to Sarajevo. Well, I was wrong. The other international students turned out to be a very friendly and enthusiastic people, always willing to go out and discover the oddities and peculiarities of this great city, not returning home before 4 AM. Being with them made my research stay a great experience and a fond memory. Then, of course, is the city itself, one of the most charming places I have ever been to. The metropolitan and cosmopolitan feeling of a capital city goes hand in hand with the odd layout, whereby the city center with all its institutions and services is really small. Finally, my stay here was made much easier by the support of the administrative crowd and the University of Sarajevo employees – both at the department of sociology, where I was enlisted and in the international office. All this together made my stay in Sarajevo a great experience.

**Marzia Bona**  
**University of Bologna**  
**ITALY**

As an exchange student at the University of Sarajevo, I had the opportunity to attend stimulating lectures given by brilliant professors. Conferences and parallel events have further enriched the educational opportunity of studying at this University. Infrastructures of the University of Sarajevo, such as the Human Rights Library and the National Library of Bosnia Herzegovina have proven a very useful tool for my studying and researching activities. The city is a priceless environment, offering lots of possibilities for the free time. At same time, its dimension makes it very accessible and enjoyable. Cultural initiatives and the great nature surrounding the city have made my staying in Sarajevo an enriching experience even outside the academy.

**Fatimah Asghar**  
**Brown University**  
**UNITED STATES OF AMERICA**

I am currently the Fulbright English Teaching Assistant in Sarajevo. I am partnered with the University of Sarajevo, Department of Islamic Studies. Participating in an exchange to Bosnia and Herzegovina has been one of the most enriching experiences of my life. I am very humbled by how much I have learned, and how quickly it felt like my home. First and foremost, Sarajevo is a wonderful place to live and learn. Bosnia is a beautiful country that is unlike any other place I have ever seen- the terrain is stunning and the people are very kind and genuine. Secondly, the Department of Islamic Studies was an amazing place to work - everyone was very welcoming and friendly and the students were great. They were very enthusiastic and a pleasure to teach. I taught them conversational English and would come in weekly with a lesson that I had designed on my own. I was excited to be given such control and liberty over what I taught them because I was able to talk about subjects that I was passionate about, as well as occasionally play games with them to make the learning more fun. I enjoyed the classroom environment that we had and noticed a great improvement from when they first entered my class to when they left.

I also conducted a side project and research: my research was on political artistic performance in Sarajevo and my project was to create a Slam Poetry (performance poetry) and Storytelling group here. Both the side project and the research worked out really well - I learned a lot from the artistic scene in Sarajevo and partnered our poetry group, REFLEKS, with the Sarajevo War Theater. The research was very insightful for me and directly related to the work that I want to do in the future. I met, worked with, and learned from amazing people at the Sarajevo War Theater and *Magacin Kabare*. It was also great to interact with a diverse group of writers in REFLEKS and to be able to get to know people through writing and discussion. It was also phenomenal and inspiring to see people going from first understanding a new art form (Slam/Performance Poetry) to seeing them really enjoy doing it and use it as a way to express some of their deepest thoughts and feelings.

All in all, I am thrilled with my experience and know that I have made some life long friends as a result of my experience on my Fulbright. I would recommend exchange programs such as Fulbright to everyone, because it is a great opportunity to grow and learn.

I have really liked Sarajevo since my first visit there in 2006. I have generally liked study stay abroad and as I had been already in Vienna, I wanted rather in a post-communistic country. I wanted to learn Bosnian (Serbian, Croatian), which had been for my almost new language but on the other side quite similar to manage it quickly, I hoped. My impression was very good, I was only sad that I could not stay longer. However, I would have appreciated more classes of Bosnian (or maybe i.e. three days intensive course at the beginning).

The other thing which doesn't concern directly international students, but all of the students is the fact that some professors (or assistants) were not always in their offices during their consultation time, without leaving a note of absence. On the other side, they were friendly when they spoke with me (us) and they generally tried to do the best for us.

Štěpán Majrovský  
Masaryk University, Brno

**Marko Krajnović**  
**University of Zagreb**  
**CROATIA**

I decided to apply Basileus project in 2009/2010 when I was in my 3rd year of studies at my home University in Zagreb, because I knew that was a perfect period and a great opportunity to experience a student exchange. I had chosen Sarajevo for my exchange because it is a city with rich history and it's widely known for the hospitality of its citizens towards anyone who comes to Sarajevo. What also helped me in my decision was the fact that my home faculty - Faculty of Economics and Business Zagreb - has signed a cooperation agreement with Faculty of Economics of Sarajevo, which made some procedures connected to the exchange a lot simpler and easier.

My first impression when I came to Sarajevo was just as I expected. People were very kind and helpful, both at the University of Sarajevo and at the Faculty of Economics. And I really had lots of questions, especially in the beginning. I was also connected to ESN Sarajevo, which offered their assistance in any possible situation. There were also organized some meetings with other exchange students at the University.

I have to point out that I had a very good relations with all my professors and assistants. I was accepted as any other student of the Faculty and I had all the same rights and obligations. Some professors offered their recommendation letter after the exchange and I also got the book "Seven Habits of Very Successful People" from professor Aziz Šunje and his assistant Emir Kurtić for the success on their course.

My general impression of the mobility was great, it is definitely an experience that every student should try to gain at least once in his student period. I would definitely apply again and repeat everything. In the end, here is my message to anyone who is in doubt is: the longer you think whether to apply to an exchange or not, the closer you are to the point when you will regret! Some people spend their whole (student) life in thinking!

I chose Sarajevo because of my previous visit during the film festival, where I feel in love with the city. If you are looking for something else, not the classic Erasmus story, Sarajevo is the perfect choice. The city itself is big enough for a full and vibrant student life and small enough to meet your new friends on the street and have a coffee or beer with them in one of the many charming cafés or bars.

Sarajevo is different than the cities in Western or Central Europe, the mix of eastern, western and socialist architecture, the rich and multicultural history, the warm and talkative people and last but not least the local food and beverages, which offer you a great diversity and an experience you will never forget.

In the end there is only one right option for your Erasmus stay and once you are there and you drink water from the fountain in the Baščaršija old center you will not only always come back to Sarajevo, as the legend says, but you will never want to leave the city with its surrounding Olympic mountains.
