

Dear students from around the world,

How does a student festival experience abroad sound to you?

ISWinT (International Student Week in Timișoara) is an educational intercultural festival organized by the League of Students from the Faculty of Automatics and Computers (Liga AC) with the support of **Politehnica University Timișoara** and its **Department for International Relations**.

Students from all around the world aged between **18 and 30 years** old are invited to **Timișoara, Romania** between 24th of July and 1st of August 2023 to talk about important worldwide issues, discover other cultures, and experience the Romanian lifestyle.

During ISWinT, students will take part in a series of workshops to highlight the theme of this edition of the festival, **“Connecting the dots”**. Through this year's workshops and activities, we aim to draw attention to what connects us all and on the importance of improving the communities we live in. To highlight this topic, we have chosen 4 tracks for our workshops: **“Society without boundaries”**, **“Health and well-being”**, **“Developing our town”** and **“Education done right”**. They aim to solve real problems that are faced on a daily basis nowadays.

The **applications** are **open until the 12th of March!** Visit our site <https://iswint.ro/> and **register now!**

Timișoara,

09.02.2023

ISWinT 2023 Coordinator,

Radu SCORTESCU
